THE DUBLIN UNIVERSITY CALENDAR.

Introduction.

UNIVERSITY OF DUBLIN, TRINITY COLLEGE.

§ I. THE UNIVERSITY OF DUBLIN was founded by Queen Elizabeth, A.D. 1591. On the third day of March in that year, a College was incorporated by Charter or Letters Patent, as "the Mother of an University,"^a under the style and title of "The College of the Holy and Undivided Trinity, near Dublin, founded by Queen Elizabeth."^b

Previous to the year 1873, the Provostship, Fellowships, and Foundation Scholarships of Trinity College could only be held by Members of the Church of Ireland. This restriction was sanctioned by Parliamentary enactments in the case of the Provostship and Fellowships (33 Geo. III. c. 21). With regard to the Foundation Scholarships, the limitation arose solely from certain provisions in the College Statutes. All these restrictions were removed by the Act 36 Vict. c. 21. The preamble to this Act recites that it is expedient "that the benefits of Trinity College, and the University of Dublin, and of the schools in the said University, as places of religion and learning, should be rendered freely accessible to the nation," and that all restrictions, tests, and disabilities should be removed.

§ II.—GOVERNMENT.—Subject to the control of Acts of Parliament and Royal Statutes, the government is in the hands of the Board, in conjunction with the Visitors, but in most matters relating to education, as specified in detail below, it acts conjointly with the Council, and in matters relating to the conferring of Degrees, the sanction of the Senate is required.

^a "Unum Collegium mater Universitatis . . . pro educatione, institutione et instructione juvenum et studentium in artibus et facultatibus, perpetuis futuris temporibus duraturum, et quod erit et vocabitur Collegium Sanctæ et Individuæ Trinitatis, juxta Dublin, a serenissimâ Reginâ Elizabethâ fundatum."—*Charta Reg. Eliz. anno regni tricesimo quarto.*

^b For an account of the various Charters and Royal Letters affecting Trinity College see "Statuta Collegii atque Universitatis Dubliniensis."

The BOARD consists of the Provost and seven Senior Fellows, and the Fellows, if any, other than Senior Fellows, who may be elected by the Board to the office of Bursar, Senior Lecturer, or Registrar, together with two representatives of the Junior Fellows, and two representatives of the Professors.

The VISITORS are the Chancellor of the University (or, in his absence, the Vice-Chancellor) and the Lord Chief Justice of Ireland.

The SENATE, or Public Congregation, of the University, consists of the Chancellor, or, in his absence, of the Vice-Chancellor, or Pro-Vice-Chancellor for the time being, and such Doctors or Masters of the University as keep their names on the books of the College in accordance with such regulations as the Board may enact. (See p. 23.)

The Caput of the Senate consists of the Chancellor, or Vice-Chancellor, or Pro-Vice-Chancellor, the Provost, or, in his absence, the Vice-Provost, and the Senior Master non-regent,^a who is elected by the Senate.

The Senate is convened only by the Chancellor, or, in his absence, the Vice-Chancellor or Pro-Vice-Chancellor, each of whom, when presiding, has power to adjourn or dissolve its meetings, and has a casting vote. The Chancellor, or in his absence, the Vice-Chancellor or Pro-Vice-Chancellor, is bound to convene the Senate, on a requisition presented to him by the Board, and the Senate shall meet at such time, and for such purpose, as shall be stated in such requisition.

Whenever the office of Chancellor becomes vacant, the Board must, within one calendar month, propose to the Senate the names of three persons, from amongst whom the Senate must elect a Chancellor within one month from the day of such proposal. In computing these periods, the interval between the 1st of July and 1st of October shall not be taken into account, nor shall an election take place during such interval. If the Senate decline or omit to elect, the nomination of the Chancellor passes to the Crown. The Vice-Chancellor continues to hold his office during the vacancy of the office of Chancellor, and, during such vacancy, has power to convene the Senate for the purpose of electing a Chancellor, and has authority to exercise all the functions and duties of the Chancellor, until the election of the Chancellor.

The Vice-Chancellor, if unable to attend any of the meetings of the Senate, is empowered, by writing under his hand and seal, to appoint a Pro-Vice-Chancellor for that special occasion.

The Board has power to alter, amend, and repeal all laws, rules, or by-laws heretofore existing, and to make new rules and

laws, from time to time, for the more solemn conferring of Degrees by the Senate; provided always that no such new laws, or alteration of existing laws, shall be of force or binding upon the University, until they shall have received the sanction of the Senate lawfully assembled.

No law, rule, by-law, or grace whatsoever, for the conferring of Degrees, or any other purpose, can be proposed to the Senate, which has not been first proposed to and adopted by the Board. The Chancellor or Vice-Chancellor presiding is empowered to prohibit any such law or grace from being proposed to the Senate.

Gowns are worn at meetings of the Senate.

The COUNCIL consists of the following members:—The Provost, or, in his absence, the Vice-Provost; the Senior Lecturer; the Registrar; and sixteen members of the Senate, namely:—two elected by the Board; six elected by all of the Junior Fellows and those of the Professors and of the King's Professors appointed to lecture or examine in the Schools in Arts as hereinafter defined; one elected by those of the Junior Fellows and Professors appointed to lecture or examine in the School of Law; two elected by those of the Junior Fellows and Professors appointed to lecture or examine in the School of Physic; one elected by those of the Junior Fellows and Professors appointed to lecture or examine in the School of Engineering; four members elected by all the members of the Senate.

The Schools in Arts consist of the following Schools, viz.:—The School of Mathematics, the School of Classics, the School of Hebrew and Oriental Languages, the School of Mental and Moral Science, the School of Experimental Science, the School of Natural Science, the School of History and Political Science, the School of Modern Languages and Literature, the School of Legal and Political Science, the School of Celtic Languages, and such other Schools in Arts as may hereafter from time to time be established.

The Council nominates to all Professorships, except those the nomination to which is vested in some other body or persons by Act of Parliament, or by the directions of private founders, and except also the Professorships in the School of Divinity. Such nomination is subject to the approval of the Board. In the event of the Board refusing its approval to the nomination of the Council, the Chancellor decides whether the grounds for such refusal are sufficient. If they appear to him to be insufficient, he declares the person nominated by the Council to be duly elected. If not, the Council proceeds to a fresh nomination. If no election shall take place within the space of six calendar months from the date of the vacancy, or from the time of the creation of any new Professorship, the right of nomination and election for the purpose of

filling up such vacancy, or of appointing to such new Professorship, lapses to the Chancellor. No person, being at the time a member of the Council, shall be nominated by the Council to any Professorship.

Except so far as is otherwise provided by Act of Parliament, or by direction of private founders, any proposed new rules or regulations respecting studies, lectures, and examinations (other than those connected with the School of Divinity, with which the Council has no authority to interfere), and also any proposed new rules or regulations respecting the qualifications, duties, and tenure of office of any Professor in any Professorship now existing, or hereafter to be constituted, except the Professors and Professorships connected with the said School of Divinity, and any proposed alterations in any existing rules or regulations respecting such studies, lectures, and examinations, qualifications, duties, and tenure of office, save as aforesaid, require the approval both of the Board, and of the Council.

All such new rules and regulations and alterations in any rules or regulations may be originated either by the Board, or by the Council.

No new Professorship can be created or founded by the Board without the consent of the Council.

§ III. TEACHING.—The Examining Staff consists of the Provost, Fellows, and Professors.

The Lecturing Staff consists of the Junior Fellows and Professors.

The greater part of the teaching in the obligatory Courses in Arts is performed by the Junior Fellows. To Professors selected from among them is entrusted for the most part the instruction which is given in the highest departments of these Courses. Special Lecturers are selected to lecture Candidates for Honors.

From the early Statutes it would seem to have been originally intended that the Fellows should carry on the special instruction required by Students desirous of qualifying themselves for particular Professions. But the growing requirements of the Professional Schools, especially the Medical, prevented this design from being carried out, and the special instruction required for the Professional Schools of Divinity, Law, Medicine, Engineering, and Agriculture is now, for the most part, delivered by Professors elected to teach special subjects.

Outside the regular Courses in Arts, and the branches of study required in the Professional Schools, there are various departments of learning for the cultivation of which Professorships have been from time to time founded.

§ IV. DEGREES are publicly conferred by the Chancellor or Vice-Chancellor, in the Senate or Congregation of the University.

The Grace of the House for a Degree in any Faculty having

first been granted by the Board, must pass the Caput before it can be proposed to the rest of the Senate, and each member of the Caput has a negative voice. If no member of the Caput objects, the Proctor, in a prescribed form of words, *supplicates* the Congregation for their public Grace; and, having collected their suffrages, declares the assent or dissent of the House accordingly; if the *placets* be the majority, the Candidates for Degrees are *presented* to the Senate by the Regius Professor of the Faculty in which the Degree is to be taken; or, if it be a Degree in Arts, by one of the Proctors: they then advance in order before the Chancellor, who confers the Degree according to a formula fixed by the University Statutes,* and after which the Candidates then subscribe their names in the Register.

Public Commencements for the conferring of Degrees are held four times in each year on days published in the Almanac. A *Diploma* is sometimes given to those who are fully qualified for a Degree, but whose circumstances may render it inconvenient for them to wait for the public Comitia; but such persons can exercise none of the rights and privileges connected with their Degree until they have appeared at Commencements, and have had the Degree publicly conferred on them by the Chancellor or Vice-Chancellor. An exception to this rule may be made in favour of candidates when the circumstances which prevent their appearing in person are of a sufficiently grave or exceptional nature. (See page 16.)

A meeting of the Senate for the consideration of names proposed for Honorary Degrees is held at the end of Hilary Term, to which attention is called a week before by notice on the College gate.

The following Regulations with regard to the order to be observed in conferring Degrees at the Public Commencements have been sanctioned by the Vice-Chancellor:—

I. The Chancellor announces the opening of the Comitia. At the Winter Commencements the Senior Master non-regent is elected, on the proposition of the Chancellor and the Provost; and the two Proctors and the Registrar make the statutory affirmation.

II. The Senior Proctor supplicates for the Licenses in Medicine, in Surgery, and in Engineering. The Junior Proctor supplicates for the Degrees of Bachelors in Arts. The Senior Proctor supplicates for the other ordinary Degrees.

III. The Senior Lecturer introduces the Moderators to the Chancellor, who presents them with their Medals. The Senior Lecturer introduces the Respondents to the Chancellor, who presents them with their Certificates.

* See the forms of presentation and supplication, and also the forms of suspension and absolution, in the University Statutes.—*Stat. Univ.* after cap. xi. The forms for conferring Degrees are given in cap. v.

IV. Licences in Medicine, in Surgery, and in Engineering are conferred.

V. Candidates for Honorary Degrees are presented to the Senate and admitted by the Chancellor.

VI. Candidates for Ordinary Degrees are presented and admitted. Candidates in Arts are presented by the Proctors: other Candidates by the Professors of their respective faculties. In presenting the Candidates the following order is observed:—

- | | |
|--|---|
| 1. Bachelors in Music who are not Graduates in Arts. | 13. Masters in Dental Science. |
| 2. Doctors in Music who are not Graduates in Arts. | 14. Masters in Engineering. |
| 3. Bachelors in Arts. | 15. Masters in Obstetric Science. |
| 4. Bachelors in Agriculture. | 16. Masters in Surgery. |
| 5. Bachelors in Science. | 17. Masters in Arts. |
| 6. Bachelors in Dental Science. | 18. Bachelors in Divinity. |
| 7. Bachelors in Music who are Graduates in Arts. | 19. Doctors in Music who are Graduates in Arts. |

| 11. Bachelors in Medicine. | 23. Doctors in Medicine. |
| 12. Bachelors in Laws. | 24. Doctors in Laws. |
| | 25. Doctors in Divinity. |

No Grace for a Degree will be presented to the Senate unless the Candidate shall have communicated with the Proctor at least the day before the Commencements.

Terms and Exercises required for the several Degrees.

To take the Degree of *Bachelor in Arts*, the Student must keep the Terms required by the Rules of the College. He must pass two stated Examinations—one at the end of his second year, the other at the termination of the University Curriculum.

A Master in Arts must be a B.A. of three years' standing.

When the time at which a higher Degree can be taken is said to be reckoned from the taking of the Degree of Bachelor in Arts, or in any Faculty, the time may be reckoned from the date at which, according to the laws and statutes of the University, the Degree of Bachelor might have been taken. Thus a Candidate is of proper standing to take the Degree of M.A. three years after he has passed the Examination for the B.A. Degree. With this condition, the inferior and superior Degree may be taken on the same day.

In the case of a candidate for a higher Degree whose studies have been interrupted owing to his having served with H. M.

Forces, 1914-18, upon his completion of the required exercises, the date when these exercises might, in the opinion of the Board, have been completed, if he had proceeded regularly with his course, will be accepted as the date of his qualifying for the lower Degree.

The qualifications for the Degree of *Bachelor in Science* (Sc.B.) shall be research and advanced study in any important branch of Mathematical, Experimental, Natural, or Applied Science.

A Graduate of the University of Dublin, having obtained Moderatorship in Mathematics, Experimental Science, or Natural Science, may present himself for the Degree of Sc.B. one full year after graduation, provided he shall during that year have devoted himself to any important branch of Mathematics, Physics, Natural or Applied Science, both by advanced study and by research. The latter, when of an experimental or observational nature, must be carried on, as far as practicable, in the Laboratories of the College; or in Laboratories recognized by the Board and Council.^a

A Graduate of any other approved University who possesses a Degree the equivalent of Moderatorship, having spent a full year in residence in the University of Dublin, and having during that time pursued one of the branches of Mathematics, Experimental, or Natural Science, by advanced study and research, as defined above, shall be eligible to present himself for the Degree of Sc.B.

A Graduate of the University of Dublin who has not obtained a Moderatorship, or a Graduate of any other approved University, may qualify himself for entry upon the course of study and research by presenting himself at the Moderatorship Examination which embraces the subject of his intended studies, and obtaining such marks thereat as would qualify for Moderatorship.

The Candidate will be required to submit, in writing, to the Registrar a statement of the course of study and research which he desires to pursue, that it may be laid before the Board for approval.

The proficiency of the Candidate in the branch of Science which he has selected shall, at the close of his year of study, be tested by Examination. The Examiners shall be selected by the Board, and may include one or more who are not members of the College staff.

The Candidate shall submit to the Registrar, not less than one fortnight before the date of the Examination, a Thesis (type-written or in print) giving an account of his research, and shall at the same time forward to the Bursar the sum of five pounds, and the Board shall submit this Thesis to Referees. The Referees and Examiners shall present a joint report to

^aThe Laboratories of the Royal College of Science, Dublin, are recognized under this scheme.

the Board upon the merits of the Candidate, not less than one week before the date of Conferring of Degrees. In the event of the Degree being granted, the above payment will be allowed as part payment of the Degree fee of ten pounds to the Senior Proctor.

The following Scale of Fees for Extern Students preparing for the Sc.B. Degree was approved by the Board:—

A. If the candidate proposes to present himself at the Moderatorship Examination in order to obtain the necessary qualification, he shall pay:—(a) £3 10s. for each Term prior to qualifying at that Examination during which he attends the College Laboratories; (b) £11 5s. prior to presenting himself at the Moderatorship Examination; (c) £2 2s. for each Term subsequent to his qualifying at the Moderatorship Examination during which he attends the Laboratories.

B. If the candidate does not present himself at the Moderatorship Examination, he shall pay £3 10s. for each Term during which he attends the College Laboratories.

Doctor in Philosophy.—A candidate for the Degree of Doctor in Philosophy (Ph.D.) must either (a) be a graduate of the University who has gained a Moderatorship, or has obtained the Degree of Sc.B., or has done such work in the Laboratories during his Undergraduate course as shall show his fitness to proceed with the exercises required for the degree; or (b) have obtained a degree in some other approved university such as will qualify him to enter on a course of advanced study or research.

The candidate, qualified as above, must pursue, under the supervision of the professors concerned, a whole-time course of research or advanced study in some branch of science, or letters, or philosophy selected by him, for a period of two academic years. Provided always that in lieu thereof an equivalent amount of work, spread over a longer period, may be accepted, and that in substitution for one of the two years the candidate may offer evidence of an equivalent amount of literary or research work done previously in an approved institution, or may elect, at the conclusion of his first year, and with the approval of the professors concerned, to pass his second year at some other seat of learning at home or abroad.

At the conclusion of his course the candidate must embody his results in a thesis, which must be approved by the professor or professors concerned as sufficiently showing the candidate's qualification for the degree, and which must be communicated by him to a meeting held within the College, open to all members of the University, and convened by the Provost. He may also be required to present himself for examination in branches of knowledge cognate to the special field of his researches.

The Examiners appointed to report on the merit of the work submitted shall have power to question the author upon his work, either viva voce or in writing.

The work must be printed and placed in the hands of the Registrar to be submitted to the Examiners at least two months before the date of the Commencements at which the candidate desires to obtain the Degree.

Doctorate in Science or Literature.—Any graduate applying to the Registrar to have the Private Grace of the Provost and Senior Fellows for the Degree of *Doctor in Science* or *Doctor in Literature* must as a preliminary step lodge with the Bursar the sum of ten pounds, to be paid to the Examiners who are to inquire into the scientific or literary claims of the applicant: in the event of the Degree being granted, this sum will be allowed in part payment to the Senior Proctor of the fee of twenty-five pounds for the Degree. The candidate must also, with the work he submits for the Degree, supply full information as to the authorities and materials which he has used, and must declare, in writing, that the work is his own and has not been submitted as an exercise for a Degree at any other University.

The Examiners appointed to report on the merit of the work submitted shall have power to question the author upon his work, either viva voce or in writing.

The work must be printed and placed in the hands of the Registrar that it may be submitted to the Examiners at least two months before the date of the Commencements at which the candidate desires to obtain the Degree.

A Doctor in Science must be a Bachelor in Arts of the University of Dublin of at least three years' standing. The primary test for the Doctorate shall be original published work in Science submitted by the candidate. It must contain such results as mark an advance in scientific knowledge; and in the case of experimental work must show the candidate's power of following up experimental evidence in the elucidation of phenomena, and that he possesses originality in planning experiments and ability in deducing conclusions therefrom.

A Doctor in Literature must be a Bachelor in Arts of the University of Dublin of at least three years' standing. The primary test for the Doctorate shall be published work submitted by the candidate, and forming an original contribution to the study of (a) Literature, Ancient or Modern; or (b) Philosophy; or (c) Æsthetics; or (d) History; or (e) Archæology. Works dealing with other departments of study, such as Theology or Law, which possess a special doctorate, may not be submitted for the Litt.D.) The candidate's work must show evidence of independent inquiry, and must either contain some real addition to knowledge, or present a fresh interpretation of materials

already known. It must be of substantial importance, and should, as a rule, be concerned with a single subject. If separate papers or essays are submitted, they should exhibit some unity of aim.

Degrees in Divinity.—All exercises and examinations necessary to the attainment of Degrees in Divinity are under the control of a Court consisting of the Regius Professor of Divinity or his Deputy, Archbishop King's Professor of Divinity, the Professor of Biblical Greek, and the Professor of Ecclesiastical History.

All correspondence relative to Degrees in Divinity must be addressed to the Regius Professor, or to his Deputy.

A Bachelor of Divinity must be a Bachelor of Arts of three years' standing. He must likewise have undergone a special Examination in Divinity.

Candidates for this Degree will be required to show a general knowledge of the Scriptures of the Old and New Testament, of Ecclesiastical History, and of Dogmatic Theology, and also to have made a special study of some particular branches.

Examinations.—As a general rule, it is required that Candidates shall be examined in the Course annually appointed for Examination for Theological Exhibitions (see under Divinity School, "Theological Exhibitions"). It consists of six Divisions, viz.:—

- I. Old Testament,
- II. Hebrew,
- III. New Testament,
- IV. Dogmatic Theology,
- V. Ecclesiastical History, and
- VI. Patristic Theology.

Candidates for the B.D. Degree are permitted to bring up any one or more of these Divisions, in any order, at any one of the three Examinations which are annually held in March, June, and December, and to reserve the rest for any subsequent Examination or Examinations. They are required to give notice to the Regius Professor a month before the Examination at which they propose to present themselves, stating at the same time in what divisions of the Course they desire to be examined. Each Candidate, when he gives such notice, must send to the Senior Proctor an examination fee of one guinea for each Division specified in his notice. The fees so paid by the Candidate will, in case he obtains the Degree, be allowed (to an amount not exceeding six guineas) in part payment of the Degree fee of £13 15s.

The Court, on sufficient reason being shown, may make different arrangements for a Candidate's Examination. Application for such special arrangements must be made three months before the Commencements at which the Candidate desires to obtain his Degree.

Candidates who do not hold the Divinity Testimonium will further be examined in the following:—

- (6) The Thirty-nine Articles of Religion, with Bishop Gibson's *Exposition*.

Candidates, on giving not less than one month's notice, may substitute for (6) *The Westminster Confession of Faith*, *The Form of Presbyterial Church Government*, and *The Directory for Public Worship*.

Thesis.—As a proof that the Candidate has, in addition to the general course of reading, made a special study of some particular branch, he must send to the Regius Professor, two months before the day of Commencements, a Thesis, printed or type-written, on a subject chosen by himself and approved of by the Court. The Thesis should be accompanied with references to the authors consulted in its composition.

A *Doctor in Divinity* must be a Bachelor of Arts of eight years' standing, and must also be a Bachelor in Divinity. He is required to present a printed Thesis, in which he has treated of and explained some portion of Doctrine from the Holy Scriptures, or of the History of the Church, or of Dogmatic Theology. It is desirable that the Candidate, before printing his Thesis, should have the subject approved of by the Court. This Thesis he must send to the Regius Professor two months before the day of Commencements, and at the same time he must lodge with the Bursar a sum of £5, to be paid to an Examiner appointed by the Court, who, together with the Regius Professor, shall report to the Court on the merits of the Thesis. In the event of the Degree being granted, such sum will be allowed in part payment to the Senior Proctor of the fee of £26 for the Degree.

The University of Dublin Tests Act (36 Vict. chap. 21) abolishes the necessity formerly imposed on Candidates for the Degree of Bachelor or of Doctor of Divinity of subscribing the declaration of the Royal Supremacy, the Liturgy of the United Church of England and Ireland, and the Thirty-nine Articles.

* If candidate is a B.A. of the University, the Fee is only £5.

Admission of Candidates to Degrees "in absentia."—A Student of the University may be allowed (although not present in the Senate) to proceed to his Degree upon the following conditions:—

1. The academic qualification required for Degrees to be conferred *in absentia* are the same as those required for Degrees conferred in person.

2. The requirements as to fitness of character are also the same as those required for Degrees conferred in person, viz.: that before passing any Grace for a Degree *in absentia* the Board shall require such evidence as it may deem necessary to secure that no unworthy Candidate is presented to the Senate.

3. Subject to the foregoing, the Board may pass a Grace for a Degree *in absentia* (a) for any Candidate resident without the British Isles, or (b) for any Candidate resident within the British Isles if the circumstances which prevent his appearing in person are in their opinion of a sufficiently grave or exceptional nature.

Admission "ad eundem Gradum."—A candidate who holds an Oxford or Cambridge Degree may be admitted to the corresponding Degree in Dublin, if the Senior Lecturer and the Senior Proctor are satisfied that his reasons for seeking the Degree, and his academic qualifications are sufficient; letters testimonial from the authorities of the applicant's College as to character to be sent to the Senior Proctor in every case.

The fee for the B.A. Degree *ad eundem* is £13 5s., as the Candidate must place his name on the College books. In all other cases the fee is the same as that payable by Dublin Graduates.

Candidates who have paid to the Senior Proctor the fee for a Degree *ad eundem* may present themselves for the examination for a higher Degree on payment of the regular examination fee, and before the *ad eundem* Degree has been conferred, and if the Candidate be successful, the higher and lower Degrees may be conferred at the same Commencements.

For the purpose of ascertaining the date at which a higher Degree may be taken, the Candidate is reckoned as having taken the lower Degree *ad eundem* on the date at which he obtained the corresponding Degree in his own University.

Application for the Degree of B.A. *ad eundem* must be made through the Senior Lecturer, in all other cases through the Senior Proctor.

Degrees (jure officii) not higher than that of Master in any Faculty may be conferred upon Professors, Lecturers, Readers, and Officers of the University or College; provided that no person shall be admitted to such a Degree unless he be of at least two years' standing in his office, and, in the case of Degrees in the Professional Schools, has been recommended by the Committee or Council of the School concerned.

Provided also that the Private Grace of the Board for any such Degree shall be submitted to a meeting of the Senate other than that at which Degrees are conferred.

Representation of the University in Parliament.

UNDER the Representation of the People Act, 1918, the University of Dublin returns two members to Parliament, under a system of Proportional Representation.

Every person of full age (*i.e.*, 21 in the case of a man and 30 in that of a woman) is entitled to be registered as a Parliamentary elector for the constituency of the University of Dublin, provided that he is a British subject and is not subject to any legal incapacity* and has received a Degree (other than an Honorary Degree) at the University, or has obtained a Scholarship or Fellowship in the University, whether before or after the passing of the Act.

A registration fee of £1 is charged to Bachelors in Arts who graduated when the Degree fee for a Bachelor in Arts was £1; but no fee is charged to Doctors or Masters or to Bachelors who graduated since the Degree fee was raised from £1 to £2. Forms of application may be obtained on application to the Assistant to the Registrar of University Electors.

* This restriction applies only to conscientious objectors and to those convicted of offences under the Defence of the Realm Act.

Trinity College.

ORDER OF RANK IN THE COLLEGE.

THE several orders in the College are the following :—

1. THE PROVOST or Head of the College ; who must be not less than thirty years of age.

2. FELLOWS ; who were formerly bound to enter into Priest's Orders, except five : of whom one was elected *Medicus*, by the Provost and Senior Fellows, and two others were elected *Jurista juris Civilis* and *Jurista juris Anglici*, respectively. This obligation to take Holy Orders was removed by the Act 36 Victoria, chap. 21.

3. NOBLEMEN, SONS OF NOBLEMEN, and BARONETS, who are matriculated as such under the title of *Nobilis*, *Filius Nobilis*, and *Eques*.

4. DOCTORS in the several Faculties, BACHELORS IN DIVINITY and MASTERS IN ARTS, SURGERY, OBSTETRIC SCIENCE, CIVIL ENGINEERING, DENTAL SCIENCE. Doctors and Masters have no Collegiate privileges or duties, unless their names are kept on the College Books.

5. BACHELORS IN CIVIL LAW, MEDICINE, SURGERY, OBSTETRIC SCIENCE, CIVIL ENGINEERING, DENTAL SCIENCE, AGRICULTURE, and BACHELORS IN ARTS. They are not required to keep their names on the University or on the College Books in order to entitle them to proceed to the higher Degrees. All Graduates are entitled to be registered as Parliamentary electors for the constituency of the University of Dublin. Graduates other than Doctors and Masters should apply to the Assistant Registrar.

6. FELLOW-COMMONERS, who have the privilege of dining at the Fellows' Table.

7. SCHOLARS who are on the foundation, being members of the Cooperation of the College (see under Scholarship).

The number of Scholars is seventy, of whom thirty were formerly termed natives (*Hibernici*), but this distinction has been abolished by King's Letter, 8 Geo. IV.

8. PENSIONERS, namely ordinary Students in Arts.

9. SIZARS, who are Students of limited means, having their commons free of expense, and being exempted from annual fees. They were formerly nominated, one by each Fellow, and eight or more (provided the number of thirty were not exceeded) by the Provost. They are now admitted annually by an examination (see "Sizarships"), and the number is not limited to thirty.

COLLEGE CHARGES.

I. *Undergraduate Fees*.—Before the name of any Student can be placed upon the College Books, the amount of Entrance Fees specified below must be paid to the Junior Bursar. The payment must be made within one week of the declaration of the result of the Entrance Examination. Fees not paid within the specified time are subject to the Tardy Payment charge of 3s. per week, and if not paid within six weeks of the declaration, the Entrance Docket is cancelled. In the case, however, of those who intend to present themselves at a Term Examination on the day following the days of Entrance, the payment must be made *on the last day of the Entrance Examination*.

The following statements contain the practice with regard to Arts Fees :

(a). For Pensioners, the Entrance and half-yearly Fees are fifteen pounds and ten guineas respectively; for Fellow-Commoners, thirty pounds and twenty guineas respectively, and for *Filii Nobilium*, sixty pounds and forty guineas respectively. Sizars pay £1 1s. 3d. Entrance Fee, and are exempt from half-yearly Fees.

Pensioners who have entered before 31st December, 1920, are charged half-yearly fees of eight guineas .

(b). Students who enter after the March quarter in any year and present themselves at the Trinity Term Examination in May, or the Trinity Lectures, or the Supplemental Hilary Term Examination in June, or the Michaelmas Term Examination in October, must pay the first half-yearly fee before presenting themselves for any Term Examination or Lectures; and they must pay a second half-yearly Fee at the end of October

Students who enter after the March quarter, and do not present themselves for any of the above Examinations or Lectures, pay the first half-yearly Fee in the April of the succeeding year.

The names of Students who enter between the end of March Quarter and the 1st of November are not placed upon the College Books unless the payment to the Junior Bursar entitles them to be put in the existing Junior Freshman Class.

(c). A Student who goes through his Course in the regular way (i.e. without dropping a Class) will pay to the Junior Bursar, in addition to the Entrance Fee, eight half-yearly Fees, payable in April and October in each year; and no Student can rise to the standing of a Candidate Bachelor until he has made the last of these half-yearly payments. Students should remember that the fee of two pounds for the conferring of the Degree must be paid to the Junior Bursar on or before the day preceding the Commencements at which they present themselves.

No Student will be allowed to be a Candidate for Moderatorship, or at the Special B. A. Degree Examination in Trinity Term, unless his Fees for the current half-year shall have been paid *before* the first day of Examination.

The half-yearly Fees become due at the end of the March and September quarters, but Students are allowed to delay the payment till the Friday before the first Saturday in May or November respectively. Fees despatched by post are counted as received on the day on which they are posted. A Student sending Fees by post should state his Class and Tutor, in addition to his own name.

Half-yearly Fees should be paid on or before the Friday which precedes the first Saturday of May or November, and any Student whose Fees are not paid on that day must pay with them the Tardy Payment charge of 3s. for that and every succeeding Friday in May or November for which the Fees remain unpaid, until the first Saturdays of June and December, on which days the names of all Students whose Fees have not been paid are struck off the books, and can only be replaced on payment of a Fee of 15s., in addition to the half-yearly Fee.

In addition to the half-yearly Fees, some Students incur Incidental Expenses, due as Rent of Chambers, Commons, Punishments, and so forth, and these must be paid to the Junior Bursar, at the end of each quarter.

Sizars, whose incidental expenses are not paid within a fortnight from the date on which their accounts are furnished, are forthwith struck off the Books, and their Sizarships vacated.

(d). Students who drop a year, whether from inability to keep the requisite Terms, or from any other cause, should always consult their Tutors before paying the half-yearly Fees then due, or next to become due; and when so doing, they should state whether they belong to, attend, or purpose to join, any of the Professional Schools.

(e). A Student whose name has gone off the books can always replace in any Class in which the Terms he has kept entitle him to be placed, provided he pays the replacement Fee of 15s., and that the half-yearly payment or payments which he makes on replacement, taken with those which he has previously made, include all those paid in regular course by the Students in the Class which he joins on replacing, viz. one half-yearly Fee in the April and one in the October of each Freshman and Sophister year for which he claims credit. But it is especially to be observed that if, in the April or October of any year, a Student who is not allowed by the Senior Lecturer to keep his Class, should nevertheless pay the half-yearly Fee then due, *such payment does not count as a payment for the April or October of the Class from which he is put down*, but as a repetition of the payment previously made by him as a member of the Class to which he is put down, and such payments are not taken account of in determining the amount to be paid on replacement.

In determining the time for which the name of a Student who replaces remains on the Books without further payment, the half-yearly Fee paid on replacement is considered as having been paid at the date on which it became due by the members of the Class which the Student joins. Thus a payment made after March 21st will keep the Student's name on the Books till the first Saturday in December, unless it counts as a payment made in the previous half year, in which case the name goes off on the first Saturday in June.

Replacement.—A Replacement Fee of fifteen shillings must *always* be paid to the Junior Bursar for the replacement of the name of any Student which has been removed from the Books.

In addition, the full amount of the College Fees must be paid, see (e) above, except in the following cases:—

1. Replacement for the purpose of getting Degrees conferred.
2. Graduates of the University are allowed to go in for the Final Examination of the Divinity School, and Students who have passed the B.A. Examination are allowed to go in for the Final Examination of the Engineering School, on payment of a *Liceat ad Examinandum* Fee of one guinea. The names of Students so replaced are removed from the Books immediately after the Examination.

3. Graduates of the University are permitted to replace their names on the Books, during the first year from taking the Degree of B.A., without payment of the College Fees, for the purpose of competing for any Prizes which are open to Students in their Bachelor years. The names of any Students so replaced are removed from the Books immediately after the Examination.

During the second and third year to M.A. standing, they must pay a full half-year's fees.

In the case of all Prize Examinations at which, under existing Rules, Students presenting themselves for Examination are required to have their names on the College Books, the list of Prizes awarded shall be certified by the Junior Bursar before being laid before the Board for confirmation.

4. See Divinity School, § VI., for rules with regard to Theological Exhibitions.

When a Student's name is put on the College Books in virtue of Terms kept in another University, the fee of fifteen shillings is charged, but as a Registration Fee, not as a Replacement Fee.

II. Charges for Doctors in the several Faculties, Masters, and Members of the Senate.—Resident Doctors and Masters pay the sum of £4 half-yearly. The regulations for payment are the same as those already given under the head of Undergraduates.

The Fees payable by Members of the Senate are regulated by Decrees of the Board as follows:—

WHEREAS, by the Royal Letters Patent bearing date the 24th day of July, in the twenty-first year of the reign of Her most Gracious Majesty

Queen Victoria, it is amongst other things enacted, that the Senate of the University of Dublin shall, as heretofore, consist of the Chancellor, or, in his absence, the Vice-Chancellor, or Pro-Vice-Chancellor for the time being, and of such Doctors and Masters of Arts of the University as shall have and keep their names on the Books of Trinity College, in accordance with such regulations and conditions as the Provost and Senior Fellows of the said College shall enact :

We, therefore, the Provost and Senior Fellows, in pursuance of the powers vested in us, do hereby enact and DECREE :

1. That no change shall be made in the Fees heretofore payable by Doctors and Masters holding Rooms in the College, or in attendance on Collegiate or Professional Lectures, or presenting themselves at Examinations.

2. That all Doctors or Masters of Arts, whose names are now on the College Books (*i. e.* on January 31, 1872), and who are not resident nor in attendance on Lectures, as aforesaid, shall be permitted to retain their names on the Books of the College as Members of the Senate, without further payment.

3. That all Doctors or Masters of Arts (except as hereafter provided), whose names are not on the College Books, shall be required to pay, on replacing their names, the accustomed charge of £4 15s. for the half-year in which such replacement is made; after which their names shall be retained on the College Books as Members of the Senate, without further payment.

4. That the names of all Doctors and Masters of Arts, who have been University Students, or First Senior Moderators who have obtained a large Gold Medal, or Senior Moderators who have obtained two Gold Medals, shall be replaced and retained on the College Books as Members of the Senate, without charge.

5. That Ex-Fellows of the College, according to ancient privilege, shall be permitted to retain their names on the College Books without any charge.

6. That the Members for the University in Parliament, and ex-Members, shall be permitted to retain their names on the College Books free of all charge.

Fees for Lectures or Laboratory Instruction.—Where a fee is chargeable for attendance on a course of Arts Lectures or of Laboratory Instruction, it must be paid to the Junior Bursar not later than three days after the day fixed for the commencement of Arts Lectures or of attendance at the Laboratory, and the receipt must be produced to the Professor or Lecturer. If not paid within that time, a tardy payment fine of 3s. will be imposed. No Student is permitted to attend such a course if his fee has not been paid within six days from the commencement of Lectures or of his attendance at the Laboratory. Professors and Lecturers are directed to enforce this rule.

RESIDENCE, AND DUTIES OF RESIDENT STUDENTS.

RESIDENCE, as a part of Academic discipline, is not enforced in the University of Dublin, but residence either in the city or in the College is indirectly necessary.

Rooms.—Chambers in the College are granted by the Provost on application from the Tutor of the Student who proposes to reside. On obtaining Rooms, a sum of money is deposited with the Registrar of Chambers, which is intended as security against any injury that they may sustain, and is returned on vacating the Rooms, if all claims of the College be first satisfied. The deposit for Rooms varies from £12 to £32; and the annual rent varies from £5 to £24. Most of these Chambers are intended to accommodate two Students, in which case each Student in occupation pays only half rent and half deposit. If, however, a Student, from any cause, should be the sole occupant of such Rooms, he is always liable for the entire rent during whatever time the sole occupation continues.

A list of the Chambers vacant within the College is hung up at the Chief Steward's lodge, near the Gate. Students can see the different sets of vacant Chambers on application to the Clerk of the Works, and when they have decided which sets they prefer, they should communicate with their Tutors, giving a list containing the particulars of two or three sets of Chambers, in the order in which they prefer them, so that in case the Rooms first applied for are granted to other Students, the Tutors can apply for the other Rooms. An application for a double set of Chambers must be made on behalf of two Students jointly. If the Rooms applied for be granted, the deposit must be paid to the Registrar of Chambers within a fortnight, or else the right to the Rooms lapses. The deposit is returned when the Rooms are vacated and the keys given up to the Chief Steward.

No Student is allowed to reside in Chambers registered in the name of another, without a written permission from the Provost, stating the period during which such temporary occupation may continue. The Chambers of any Student who allows another person to occupy them, either wholly or in part, without such permission, are immediately declared vacant.

The following Regulations concerning the occupation of Chambers have been made by the Board :—

1. The Chambers of Resident Students, except Scholars, and Students attending Lectures in one of the Professional Schools, are to be vacated at the close of the Quarter in which they shall be of standing to be admitted to the B.A. Degree.

2. The Chambers of Ex-Scholars and Ex-Sizarships shall be vacated at the close of the September Quarter next after the expiration of their Scholarships and Sizarships.

3. Students attending Lectures in the Professional Schools are permitted to retain their Chambers until the first Saturday in June of their Junior Bachelor year, but not longer, without special permission from the Provost.

4. Graduates above the standing of Junior Bachelor, who may obtain permission to occupy Chambers, pay a half-yearly Fee of £5 5s. in addition to the usual rent.

5. No Student is permitted to retain his Chambers during a Term in which he is not in residence, without special permission from the Provost.

6. Students who are permitted to retain their Chambers under Rule 5 will be charged each Term full Commons Fund and full servants' wages for six weeks.

7. The Rooms of Students whose quarterly accounts are not paid within a fortnight of the date on which they are furnished by the Registrar of Chambers shall be declared vacant.

8. The Registrar of Chambers is empowered to charge Students, who may change their Rooms, and neglect to give the keys of their vacated Rooms to the Clerk of the Works, the rents of both sets of Chambers until the deposit be transferred.

9. Students who fail to vacate their Rooms within a week after they have received notice to quit from the Registrar of Chambers, shall be liable to forfeiture of their Deposit, or of such portion of it as the Registrar may determine.

10. Students living by the Provost's permission in the rooms of Fellows or Professors occupying more than one ordinary set of double chambers are required to pay rent (the amount to be fixed by the Senior Bursar), and to conform to all arrangements as to Commons and servants which are binding on Students generally. All Students living in the rooms of Fellows or Professors must conform to the arrangements as to Commons unless expressly exempted.

Attendance on Divine Service.—All Students who are members of the Church of Ireland or England, and who reside within a distance of one mile and one-half from the College, are required to attend Divine Service in the College Chapel on Sunday morning. The Junior Dean is directed to bring the names of such Students as are negligent in their attendance under the notice of the Provost or Senior Dean. Students resident within the College, who neglect to comply with the regulation on this point, are liable to be deprived of their Rooms.

The hours of Divine Service in the College Chapel are the following:—On Sundays, Morning Prayer is read at 10 a.m., and Evening Prayer at 7 o'clock. On week-days, Morning Prayer is read at 8.30 a.m., and Evening Prayer at 7 o'clock. The Order for Morning and Evening Prayer is shortened in the Chapel on week-days, by the omission of certain prescribed portions. On Sundays all Students must wear surplices, with the hoods belonging to their Degrees, if they be Graduates.

The Holy Communion is administered on Sundays during full Term at 8 a.m., and after Morning Prayer on Sundays fixed by the Provost.

After Morning Prayer on Sundays, a Sermon is delivered by one of the Professors of Divinity or one of the University Preachers for the year.

Students in residence who are members of the Presbyterian Church in Ireland, are required to lodge with the Junior Dean a certificate of attendance upon one of the Presbyterian Churches of the city signed by the Minister of that Church.

Corrections.—At half-past ten o'clock on Saturday mornings, the Junior Dean attends in the Hall, and reads out the names of all Students who have been punished for neglect of duties or other offences during the week. It is the interest of those who can excuse themselves to be present; and if their excuses are admitted by the Dean, the fines are taken off.

Commons of Resident Students.—All Students resident in College, unless specially excused by the Provost, must dine in the Commons Hall, except during the summer vacation. They must take care to put their name on Commons by application to the Clerk of the Buttery, as soon as they come into residence.

The Rules now in force with regard to Commons are as follows :—

1. That all Fellow-Commoners and Pensioners under the standing of M.A., and holding Chambers in the College, be uniformly charged, in addition to the Chamber-rent now paid to the Registrar of Chambers, a certain specific sum per week for certain portions of the year; and that the sums thus accruing be considered as contributions to a *Commons Fund*.

2. That these charges be, for each Fellow-Commoner, ten shillings and six pence per week, and for each Pensioner seven shillings; said charges to be levied for the weeks in each Term in which Undergraduate Lectures shall be given, or for so many of those weeks in any Term as the Student holds Chambers without actually giving up the keys of the same to the person entitled to receive them.

3. That these charges be made by the Clerk of the Buttery Books, from the Quarterly Chamber-rent list furnished by the Registrar of Chambers, against all persons liable to the same; and be introduced in the quarterly accounts payable to the Junior Bursar, among the incidentals of the past quarter under the name of *Commons Fund*. All persons, however, to whom Chambers may be granted within any of the periods above specified, are to be considered liable to these charges from the date the Rooms are assigned.

4. That the weekly sums thus charged be allowed in the regular Commons Charge to each Student, and the remainder, or variable part of the Commons Charge, be payable to the Clerk of the Buttery Books.

5. Students residing habitually at a distance from Dublin, and coming to Dublin to attend the Examinations of their Class, are allowed to put their names on Commons on the days on which these Examinations are held.

6. The Junior Dean shall be required to impose a fine of 5s. a week upon all Students, actually resident in College whose names shall not be on Commons at all times except during the long Vacation; it being understood that the charge for Commons Fund shall be considered an

equivalent to this fine during the week in which Commons Fund is imposed.

7. No Student's name shall be placed on the Commons List without previous payment to the Clerk of the Buttery of the amount due for the period during which his name is placed on Commons. This rule is to apply in the case of sons of Fellows and Professors.

Regulations with reference to Commons.

Long Commons.—During the period known as “Long Commons,” a Student may put his name on Commons on any day of the week, and will be charged at the rate of 2s. per day for the remaining portion of the week.

For the remaining weeks of “Long Commons,” his name must be on Commons, and he must pay accordingly.

All Students are expected to dine on Commons every day; but those who wish to dine with their friends on Sunday shall pay 12s. for the week instead of 14s. If the Student has the permission of the Junior Dean, in exceptional cases, to dine with his friends on Saturday as well as Sunday, he shall pay 10s. instead of 14s.

Short Commons.—For the period known as “Short Commons” (i.e., the six or seven weeks of lecture term), a Student joining during the first week is required to pay for the whole period in one sum. If, however, he does not join until the second or any subsequent week he is required on joining to pay in one sum for the whole of the week in which he joins, and for the whole of the remaining period of Short Commons.

A Student is required to put his name on Commons before 1 p.m. Any Student dining without having put his name on Commons is liable to a fine of 2s. 6d. for each occasion.

When there are two halls, every Student presenting himself for dinner at an hour other than that at which he is entitled to dine, without giving notice at the office before 11 a.m., will be fined 5s. on each occasion.

Under no circumstances can a Student dine more than twice a week at an hour other than his standing allows him. Freshmen dine at the first hall; Sophisters and Graduates at the second.

If a Student desires to dine with his friends on Sunday during Short Commons, he shall pay 6s. for the week instead of 7s. If he has the permission of the Junior Dean to dine out with his friends for Saturday as well as Sunday, he shall pay 5s. for the week instead of 7s.

NOTE.—In cases where a Student wishes to leave College, for reasons which the Junior Dean considers sufficient, such Student will be allowed to keep his name on Commons for 1s. a day during Short Commons, and 2s. a day during Long Commons up to the day on which he leaves.

Charges for Servants.—1. Every Student in whose name chambers are registered is charged at the rate of one guinea per quarter whether he is actually in residence or not.

2. For every week or portion of a week of actual residence a Student occupying single rooms, or in solitary occupation of double rooms, is charged 4s., and Students occupying double rooms are each charged 3s. 6d.

3. Should a Student, from any cause whatsoever, fail to be in residence for at least six weeks in any quarter other than the Long Vacation quarter, he will be charged a minimum of six of the weekly payments specified in the foregoing rule.

4. The servants are paid by the College, and they are engaged on the understanding that they are not to look for extra payments from Students.

If, however, a Student has been permitted by the Junior Dean to receive a guest in his rooms, such Student is responsible for paying the servant for the extra duties involved.

In addition to Commons Fund and charges for servants, the quarterly accounts include milk accounts and charges for gas.

Night-Roll.—All Students resident in the College, below the standing of B.A., must attend night-roll, which is called at nine o'clock. After night-roll no Student is permitted to pass out of College without a written order.

Exemption from attendance at night-roll may be granted on the ground of diligence and seniority. The extent of this indulgence is decided by the Junior Dean, subject to the approval of the Provost and the Senior Dean. Those who wish to remain out of College after twelve o'clock must previously obtain special permission.

Houses of Residence for Students.—It is compulsory for all Students attending Lectures to reside either (1) in College; or (2) with their parents, near relatives, or guardians; or (3) in one of the registered houses of residence. If a Student wishes to obtain credit for Lectures while living in an unregistered house, he must ask permission through his Tutor from the House of Residence Committee not later than the second week of Lectures, that they may report forthwith to the Senior Lecturer. The following are the members of the Committee:—the Senior Dean; the Junior Dean; J. Joly, sc.d.; A. F. Dixon, sc.d.; F. La T. Godfrey, M.A.; W. C. Stevenson, M.D., *Hon. Sec.*

Any householder in or near Dublin may apply to any member of this Committee to have his (or her) name placed on the books of the Committee as willing to afford accommodation for students. These books will be accessible to students seeking lodgings.

Every house, before being entered on the Committee's books, must have been inspected by the Sanitary Inspector, and passed by the House of Residence Committee. The householder must also satisfy the Committee as to the general suitability of the house for Students by giving suitable references in writing. These references may be addressed to any member of the Committee. Householders are not charged any fee for having their names entered on the Committee's books, but will be required to furnish an account of the accommodation they can supply, and their terms. It will be in the discretion of the Committee to remove from their books the address of any house of residence at any time.

In order to retain their names on the books, householders must comply with the following rules:—

1. To forward to the Hon. Secretary of the House of Residence Committee on November 20th, February 20th, and May 20th of each year, a list of the Trinity College Students who are at the time in their houses, or who have resided there since the last return was sent in.

2. To inform the Hon. Secretary in the months of September and December, and at Easter, what accommodation they can offer for Students. In absence of this notification it will be assumed that the house is fully occupied.

3. To notify immediately the Hon. Secretary of any case of serious illness occurring in the house.

4. To give facility to members of the Committee for inspecting the house, and to produce a recent sanitary certificate of the house if required.

Course in Arts.

ENTRANCE.

1. THE mode of admission into this University is by passing an Examination.

The Senior Lecturer is authorized to allow a Graduate in Arts of any University chartered under the Crown to have his name placed on the College Books, on payment of the Entrance Fee, without passing the Matriculation Examination.

Candidates who have passed in the Senior Grade Examination held under the Board of Intermediate Education, Ireland, or in any other Examination regarded by the Senior Lecturer as equivalent thereto, are qualified for Entrance in Trinity College on passing a further Examination in those subjects, if any, of the Trinity College Entrance Examination which are not included in those in which they have passed at the Intermediate Examination, or the Examination approved by the Senior Lecturer.

The Special Army Certificate of Education is accepted in lieu of the Entrance Examination, provided it covers Latin and one modern language other than English. If it does not cover these two languages, the Candidate will be required to pass the Entrance Examination in the languages or language which the Certificate does not cover.

All persons desirous of becoming Members of the College and of the University must, at their Entrance, place themselves under one of the Tutor Fellows who receive Pupils. The Collegiate interest of Pupils are under the guardianship of their Tutors, and to them all applications for information, whether before or after Entrance, should be made. Applications to the Board or to the Senior Lecturer must come from students not directly, but through their respective Tutors. Students may enter as Fellow-Commoners or Pensioners. But a Nobleman, the son of a Nobleman, or a Baronet, may enter as *Nobilis, Filius Nobilis*, or *Eques*. Students of limited means may compete for Sizarships, and, if successful, may enter as Sizars. Students entering after March 21, and at or before the Autumn Entrance in October, are permitted to join the Junior Freshman Class which was formed in the previous November, on payment of the half-year's fees due by members of that class, in addition to the Entrance Fee (see under 'Saving a Year').

There are five Matriculation or Entrance Examinations in the year, each lasting for two days. Of these, the Midsummer Entrance in Trinity Term, and the Autumn Entrance at the commencement of Michaelmas Term, are known as the Principal

Entrance Examinations. At all Entrance Examinations candidates who obtain 65 per cent. and upwards are given High Places. Candidates who are given High Places are arranged in order of merit, and their names, together with those of the Schools from which they present themselves, are published at the conclusion of the Examination. The Senior Lecturer is authorized to issue Special Certificates to those who are so selected.

The two Principal Entrances and two of the other Entrance Examinations are held on the days immediately previous to the four Examinations of the Junior Freshman Class (including the Supplemental Hilary Examination in June), so as to enable Students from a distance to pass a Term Examination as well as the Entrance without unnecessary loss of time. The fifth Entrance is held immediately before the Michaelmas Lectures begin. The dates of these Examinations may be found in the Almanac, and are also given under the heading 'Days of Examination.' In addition, the Senior Lecturer grants a Special Examination to such Students as are unable to present themselves at the regular Examinations, on reasonable grounds being given.

Candidates who have passed a Public Entrance Examination to the satisfaction of the Senior Lecturer are given a Large Entrance Certificate; all other candidates, who are allowed to proceed with their course, are given a Small Certificate, which cannot be used as evidence that they have passed the Public Entrance Examination of Trinity College; but such candidates will be given the Large Certificate as soon as they shall have passed a Term Examination.

The Entrance Examinations commence at 9.30 a.m.

2. Course for Principal and Ordinary Entrances.

Candidates will be examined *vivâ voce* in the translation, grammar, and subject-matter of the works which they submit. The Examination in a Modern Language will be partly *vivâ voce* in the prescribed books, and partly by papers, containing passages (unprescribed) for translation from these Languages, and passages for translation from English into the same.

The Course in Geometry* is that covered by Euclid, Books i., ii., iii.,

* In learning Geometry any of the following books may be used instead of Euclid's Elements:—Baker and Bourne, Godfrey and Siddons, Hall and Stevens, Purser.

and Book iv., Props. 1, 2, 3, 4, and 5, with some additional Elementary Practical Constructions, and also some Elementary *loci*. Geometrical Methods other than those followed by Euclid will be accepted, such as regarding tangents as limiting positions of chords, &c. Some questions will be set on practical constructions, so that candidates will have to provide themselves with a ruler, set square, protractor, and pencil compasses. (A syllabus giving more detailed information on the Course in Geometry may be obtained on application.)

SIZARSHIPS.

SIZARS are Students of limited means, who have their commons free of expense, and are exempted from annual fees. Women Students who obtain Sizarships are allowed £12 a year in lieu of commons. The Entrance fee for Sizars is £1 1s. 3d.

The poverty of the Candidates is one of the qualifications to be inquired into before they are admitted Sizars. Candidates for Sizarship are required to send in to the Senior Lecturer, on or before the 1st day of June in each year, a statement proving that they are persons of limited means and entitled to compete for admission on the ground of poverty; and only those persons who appear to the Senior Lecturer to be qualified are permitted to compete. In case of failure to comply with this rule, the merits of the case are to be considered by the Senior Lecturer.

No candidates are admitted to the Sizarship Examination who (1) are already Matriculated Students of the University; or (2) are Graduates of any Chartered University; or (3) are over nineteen on the 1st of June of the year in which they compete.

The Board may, if they think fit, award, independently of the Sizarship Examination, not more than one Sizarship in Mathematics and one in Classics to such members of the Junior Freshman Class as they may consider to have especially distinguished themselves since their matriculation, and to be otherwise suitable to be awarded a Sizarship. In this case no limit of age is imposed.

The Board offer Sizarships in Experimental Science, to be competed for by such candidates as can produce definite evidence that they have already received Laboratory instruction.

Students who enter College as Sizars are permitted to hold their Sizarships for four years. In the event of persons who are already Students of the College being admitted as Sizars, the duration of their Sizarships shall not exceed four years from the Sizarship Examination next succeeding their entrance into College. Sizars who fail to keep their class, or who drop a class without the express permission of the Board, *ipso facto*, vacate their Sizarships.

The Examination for Sizarships is held annually at the end of Trinity Term, and is marked in the Almanac for the year. The Examination commences at 9.30.

Sizarships in Mathematics, Classics, Experimental Science, Natural Science, Modern Languages, Hebrew, and Irish.—The Sizarship Examination lasts for two days, and 400 marks are assigned at it. The first day, and the morning of the second day, are devoted to the special subject, Mathematics, Classics, Experimental Science, Natural Science, Modern Languages, Hebrew, or Irish, and 300 marks assigned to it. The last afternoon is devoted (1) to an English Essay (counting 50 marks), for which all candidates, whether in Mathematics, Classics, Experimental Science, Natural Science, Modern Languages, Hebrew, or Irish, must compete; (2) for the candidates in Mathematics, Experimental Science, and Natural Science, to an easy paper in Latin Composition and a *vivâ voce* Examination in a Latin and a Greek author of his own selection, it being permissible for candidates to substitute French or German for Greek; and (3) for the candidates in Classics, Modern Languages, Hebrew, and Irish, to a paper in Arithmetic and Algebra, and a *vivâ voce* Examination in Geometry (as in the Entrance Course); and this portion of the Examination will, in each case, count 50 marks. Such Exhibitions to be held on conditions similar in all respects to those upon which ordinary Sizarships are held in the said College, and not to preclude such Exhibitioners from obtaining any other Exhibitions or Prizes, for which an ordinary Sizar would be eligible, and the said College shall determine the annual stipend to be allowed to each such Exhibitioner, or the privileges in lieu of such stipend, in such way, as to place him, with respect to exemption from fees, free commons and free rooms, on a footing similar to that of ordinary Sizars."^a

UNDERGRADUATE COURSE.

5. *Explanation of Terminology.*

There are three Terms in each *Culendar* year, *i.e.*, Hilary Term, beginning on January 10, and ending on March 25; Trinity Term, beginning on April 15, and ending on June 30; and Michaelmas Term, beginning on October 10, and ending on December 20. If, however, Easter happens to fall within the limits of Hilary or of Trinity Term, that Term is increased by an additional week.

The Academic Year commences in the beginning of November, *i.e.*, with the Lectures of the Michaelmas Term. Afterwards, in the beginning of Hilary Term, there are the Hilary Term Examinations in the subjects of the Michaelmas Lectures. Then follow the Lectures of Hilary Term, and the Trinity Term Examinations, and finally the Lectures of Trinity Term and the Examinations of Michaelmas Term, which close the Academic Year, which therefore extends from November to November.

Freshmen and Sophisters.—During the first Academic Year, Students are called Junior Freshmen; during the second Academic Year, Senior Freshmen; during the third and fourth years, Junior and Senior Sophisters; then Junior, Middle, and Senior Bachelors; but a Student belonging to the Junior Bachelor Class is called a Candidate Bachelor, not a Junior Bachelor, until he has actually taken the B.A. Degree. Graduates who are of standing entitling them to take out the Degree of Master in Arts are called Candidate

^a It was also arranged that the residue (if any) of the income of the Reid Sizarship endowment might be applied in paying the usual fees to the Examiners at the Examinations for such Sizarships, and in such manner as the Board of Trinity College might think best calculated to encourage superior education in the said County, as, for instance, by assigning from time to time stipends to such Schoolmasters as may distinguish themselves in preparing Students for Trinity College, Dublin, such stipends to be given on condition that such Master or Masters shall undertake to prepare, free of expense, as Day-Scholars, a certain number of boys of limited means for the Sizarship Examination of the College, or in such other way as to the said College may seem most effectual and expedient for the promotion of superior education in the said County.

Masters. They are of this standing three years after they have *passed* the Examination for the Degree of B.A.

By a *rising Junior Freshman* is meant a Student who, having matriculated, has not yet entered on his actual Junior Freshman year, which begins in November.

At the commencement of each Term there is a general Pass Examination for each of the four academic classes, except that the Degree Examination is held in December at the end of the fourth year, when a student has become a Candidate Bachelor, and Supplemental Examinations are held in the following January and April.

At the beginning of each Term there are also Honor Examinations in the various Honor Schools.

In each Term the undergraduate Lectures in Arts, both those of the Pass course and those of the Honor Schools, commence after the general Pass examinations of the several classes are over.

A Student is said to have credit for a Term by Lectures or to have kept a Term by Lectures when he has attended with diligence the Lectures prescribed for that Term. He is said to have kept a term by Examination when he has passed an Examination in the subjects of the Lectures prescribed for that Term. Thus, for example, a Student keeps Michaelmas Term by Lectures when he attends the Lectures given daily during Michaelmas Term; and he keeps Michaelmas Term by Examination when he passes the Examination in the same Courses held at the beginning of the succeeding Hilary Term. Two Terms are said to be distinct when they are not kept by Lectures and by Examination in the same courses; for example, when a Junior Freshman attends Lectures in Michaelmas Term, and passes the Hilary Examination in January or the Supplemental Hilary Examination in June, he does not thereby get credit for two distinct Terms.

6.

Course of Study.

In order to obtain the Degree of B.A., or Bachelor in Arts, a Student, unless exempted, is required to keep *every* Term by Lectures, and is not required to keep every Term by examination, but must keep one Term by Examination in the Junior Freshman year, pass the Final Freshman Examination, keep one Term by Examination in the Junior Sophister Year, and pass the Degree Examination. In the normal course a Student keeps a Term by Lectures when he attends with diligence the prescribed Pass Lectures; but he may substitute Honor Lectures for the Pass Lectures in the same subject, and if properly qualified (see § 16) may keep his Term by attending one Course alone of Honor Lectures. Also under the Regulations laid down in § 16, Honor Students properly qualified may obtain credit for a Term by

Examination if they obtain a First Honor at a Term Prize, or Honor Examination. Professional Students also are allowed to substitute in the Sophister years the lectures of their Schools for one of the courses of Lectures required from other Students. Also the Lecture Committee is empowered to allow a Student to substitute other Lectures for the Pass Lectures, if application is made to them through the Tutor of the Student, and if they deem the reason adequate, and consider the substitution desirable in the interests of the Student.

7. *Exemptions from Attendance on Lectures.*

In dealing with exemptions from the regulation that Students must keep every Lecture Term, it is laid down as a fundamental rule that to obtain the B.A. Degree all Students except Medical Students must obtain credit for the following minimum of eight Terms, viz.:—They must keep one Term by Examination in the Junior Freshman year, pass the Final Freshman Examination, keep one Term by Examination in the Junior Sophister year, pass the Degree Examination, obtain credit for two other distinct Terms either by Lectures or by Examination in the Freshman years, one of which must be in the Senior Freshman year, and obtain credit for two other distinct Terms either by Lectures or by Examination in the Sophister years, one of which must be in the Senior Sophister year.

For privileges granted to Honor Students see § 16.

A special Course in Arts has been arranged for Medical Students.

Students while attending in full the Lectures of the Professional School of Divinity, or Engineering, or the Indian Civil Service, or Agriculture, or Forestry, are not required to keep every Term by Lectures, but may omit keeping a particular Term, provided that they keep the above minimum of eight Terms. In every Term, however, in which they do not intend to keep the Term by Lectures, they must give information to the Senior Lecturer, so that an entry of their professional qualification may be inserted in the Term Book.

In the case of other students who, owing to their circumstances, seek exemption from keeping a particular term by Lectures, it is provided that, on sufficient reason being shown, the Lecture Committee may either allow a student to keep the Term by Examination instead of by Lectures, or, if they think fit, grant him complete exemption from attendance on Lectures during the Term. Such students must submit their reasons to their Tutors, who must lay them in writing before the Lecture Committee, at least one week before Lectures begin, and if in their opinion the reasons are sufficient, an entry to that effect will be made in the Term Book.

Before entrance a Student may apply for permission to keep

Terms by Examination alone to the Lecture Committee through the Senior Lecturer or the Tutor under whom he intends to enter; but if permission be granted, after Entrance it will be necessary for him formally to renew the application each Term through his Tutor, in order to show the continued existence of the reasons which justified the permission originally.

A student against whose name there is not a satisfactory entry covering each Lecture Term of the Academic year, does not rise with his class.

It is not intended to deprive non-resident students of the possibility of obtaining the B.A. Degree by examination alone, but this concession will be granted only to students who satisfy as above the Lecture Committee that their reasons for non-attendance at Lectures are sufficient, and such students will have to keep the minimum number of eight Terms by examination (making with the Entrance nine examinations in all).

8. A Junior Freshman or a Junior Sophister who fails to obtain credit for the compulsory examination of his year loses his class, but in other cases where a student fails to keep the exercises necessary to rise in November to the next higher class, he may, with the permission of the Lecture Committee, retain his class by keeping certain supplemental Terms. In all such cases application must be made through the Senior Lecturer.

When a Student loses his class, he retains credit for all the Terms he has already kept, but unless exempted must conform to the rule of keeping every Term by Lectures so long as his name remains on the College Books.

A student who desires to avail himself, to the full extent, of the benefit of a University Education, should, in addition to the Ordinary Course, take the Lectures and Examinations in some one or more of the various Honor and Prize Courses. He is also permitted to attend such of the Professional Lectures as deal with subjects of interest to him.

9. *Abridgment of Course of Study or Saving a Year.*

The regular period of Study extends over four years, but there are provisions by which a Student can obtain his Degree in less than four calendar years; for instance, under certain circumstances, a Student entering in October may obtain his Degree in about two years and eight months.

A Student who enters before the 21st of March in any year is placed in the Junior Freshman Class which commenced in the previous November, and a Student who enters on or after the 21st of March is in the ordinary course placed in the class which commences in the succeeding November. But a Student entering on or after the 21st of March and before the Junior Freshman

Examination in October is permitted to join the existing Junior Freshman Class (*i.e.* that formed in the previous November) on payment of the half-yearly fee of ten guineas paid in April by members of that class; and if he passes the Trinity Term Examination, or the Hilary Supplemental Examination, or the Michaelmas Examination, and has, unless exempted, kept Trinity Term by Lectures, should he have entered before they commence, he will begin the Senior Freshman year in the November succeeding his Entrance. Such a Student is said to have saved his year, and it will be necessary for him, as for any other member of the Class, to pay a second half-yearly Fee on or before the Friday before the first Saturday in November. Thus the total amount of the Fees payable during the Course is the same whether the year be saved or not.

In the Senior Sophister year a somewhat similar advantage is sometimes granted. A Student who obtains the necessary permission from the Senior Lecturer (see § 13) is allowed to rise from the Senior Sophister Class to the Candidate Bachelor Class in the June instead of the November of his Senior Sophister year on payment of the Fees necessary to entitle him to be placed in that Class, and is then permitted to answer for his Degree in June. The names of such Students are kept on the books until the following June without further payment, and the total amount of the Fees payable is not increased. Such permission will be always granted to Students who have kept all the Terms since Entrance by Lectures.

10. The following rules repeat in detail the Academic exercises required from Students in each of the Undergraduate years:—

Junior Freshman Year.

In the Junior Freshman year, a Student *must* obtain credit for one Term *by Examination*, otherwise he will not be allowed to become a Senior Freshman in November, but will be put down to the Class then commencing the Junior Freshman year.

Unless exempted, he must also have kept every Term after his Entrance by Lectures.

For the regulations with regard to the keeping of Catechetical Terms, which is optional, see Catechetical Course.

In June there is a Supplemental Examination in the subjects of the Hilary Examination, but only Students who have not already credit for a Term *Examination* are permitted to present themselves at this Examination. (Students who are exempted should observe that attendance on the Michaelmas Term Lectures and passing the Supplemental Hilary Examination in June do not entitle them to credit for two distinct Terms.)

11. Senior Freshman Year.

To rise with his class (*i.e.* to become a Junior Sophister in the November which ends his Senior Freshman year), a Senior

Freshman must, in addition to the compulsory Junior Freshman Examination, have kept two other distinct Terms either by Lectures or by Examination before the Lectures in the Trinity Term of his Senior Freshman year, and one of these Terms must be in the Senior Freshman year. He must also pass the Final Freshman Examination, or Little-Go, held at the beginning of Michaelmas Term, or one of the Supplemental Examinations held at the beginning of Hilary and Trinity Terms, and unless exempted must have kept the three Terms of his Senior Freshman year by Lectures.

In case of failure to keep the required Exercises, see § 8.

For the regulations with regard to the keeping of Catechetical Terms, which is optional, see Catechetical Course.

A Student who fails to pass the Final Freshman Examination in his Senior Freshman year may supplement it in the following January or April, and until he has passed shall attend such Lectures as the Senior Lecturer may consider advisable. If he passes, he proceeds with his Junior Sophister year; but if he fails, he is degraded to the Senior Freshman Class, and attends such Lectures as the Senior Lecturer may prescribe.

No Senior Freshman Student can be awarded a Prize at the Michaelmas Examinations of his Class unless he has passed the Final Freshman Examination.

12. Junior Sophister Year.

In the Junior Sophister year, a Student *must* obtain credit for one Term *by Examination*; otherwise he will not be allowed to become a Senior Sophister in November, but will be put down to the Class then commencing the Junior Sophister year. Unless exempted he must also have kept the three Terms of the Junior Sophister year by Lectures.

Senior Sophister Year, and Degree Examination.

13. In addition to the compulsory Examination of the Junior Sophister year, a Senior Sophister must keep two other distinct terms before the Trinity Lectures of his Senior Sophister year, and one of these Terms must be in the Senior Sophister year. Also unless exempted he must have kept the three Terms of his Senior Sophister year by Lectures.

Senior Sophisters who have satisfied these requirements are raised in November to the Candidate Bachelor Class, and may compete for the Degree Examination in the following December or January or April.

By the special permission of the Senior Lecturer, they may also be raised in June to the standing of Candidate Bachelors on payment of the half-yearly fee due before a Student becomes a Candidate Bachelor, and they would then be entitled to present themselves at the Degree Examination in June. The names of such Students remain on the College Books till the first Saturday in the succeeding June. Such

permission, however, is not extended to Students who have to keep an Examination in Trinity Term in order to qualify for admission to the Examination for Degree.

In granting this permission regard is had to the merit which the Student has shown at the Final Freshman and other Examinations, as well as the importance to the Student of obtaining the Degree at the earlier date. As stated before, such permission will always be granted to Students who have kept all the Lecture Terms since Entrance. Students seeking this privilege must make application to the Senior Lecturer on or before June 1.

In cases of extreme urgency the Board sometimes allow Senior Sophisters to be raised to the Candidate Bachelor Class and answer for their Degree in April.

A Senior Sophister who has not satisfied the above requirements may by permission of the Senior Lecturer be raised provisionally to the Candidate Bachelor Class, on condition of his performing such supplemental exercises as the Senior Lecturer may prescribe, and he may (provided his name is on the College Books) proceed to the Degree Examination in any Term subsequent to that in which he has completed the exercises.

No Student is entitled to present himself as a candidate at the Moderatorship or December Degree Examinations of his class unless he has by the end of Trinity Term kept all the Terms required before the Degree Examination; but in exceptional cases he may be allowed to do so by special permission of the Board, provided that he has performed such supplemental exercises as may be necessary to entitle him to sit for the Degree Examination.

Mode of obtaining Credit for the various Terms.

As stated in § 5, Terms may be kept by Examination or by Lectures.

14. *Keeping of Arts Terms by Examination.*

Students are not allowed to present themselves at Ordinary Examinations without notice to be given to the Senior Lecturer not later than fourteen days before the first day of the examination, provided that tardy notice may be accepted up to eight days before the examination on payment of a fine of 2s. 6d. to accompany the notice for every day in arrear. No notice shall be accepted in any circumstances unless it has been given eight days before the examination.

Notice must be given on the form provided for the purpose.

A Student presenting himself for Examination is required by the Senior Lecturer to answer satisfactorily in each separate subject, or group of allied subjects, for which he is liable. A slight deficiency in one subject may, however, be counterbalanced by marked proficiency in others, provided the previous record of the

Student does not indicate persistent neglect of the deficient subject. Special attention is paid to the mark in English Composition.

The name of a Student presenting himself at an Examination must be on the College books *before the day of that Examination*.

The October Final Freshman Examination and all Degree Examinations last three days; all the other Term Examinations last for two days. On the first day papers are set; on the second day the candidates are examined *vivâ voce*, and further papers may also be set. Term Examinations commence in the forenoon at half-past nine, and in the afternoon at two o'clock; on the *vivâ voce* days a Student must remain in the Examination Hall until all his *vivâ voce* Examinations are completed.

Students must wear academicals at all Arts Examinations other than Entrance and Sizarship.

Students residing habitually at a distance from Dublin, and coming to Dublin to attend the Examinations of their Class, may put their names on Commons on the days on which these Examinations are held. They should communicate with the Clerk of the Buttery at or shortly after 12 o'clock on the day of the Examination.

A programme, giving the hours at which the different papers are set, is posted on the notice board at the Front Gate, a day or two before the Examination.

A Student who obtains a Moderatorship is not required to compete at the ordinary Degree Examination.

15. *Keeping of Arts Terms by Lectures.*

Students in order to obtain credit for a Term by attendance at Tutorial Lectures are required to attend five-sixths of the number of Lectures appointed for the Term; but the Senior Lecturer may on the recommendation of their Lecturer, and without reference to the Board, grant terms to Students who shall have attended not less than three-fourths of the whole.

When attendance on two different branches of one subject is required (*e.g.*, French and Latin), the Student must attend at least five-sixths of the total number of Lectures, and must attend at least three-fourths of the number given by each Lecturer severally.

Students seeking credit for a Term by Lectures must, at the commencement of such Term, register with the Clerk of the Books their places of residence for that Term, and during Term notify any change of residence. If this rule be not observed, credit for the Term cannot be allowed.

Students keeping the Term by Lectures can ascertain the hours at which they are to attend, as well as the names of their Lecturers, from the notices posted at their Tutors' Rooms.

Students may obtain credit for their Terms in Modern Languages,

by attending any official Term of Lectures in the subject, irrespective of Class.

Terms may also be kept by attendance on Lectures in the Indian and Home Civil Service School, which see.

No Lectures are given on days marked thus (†) in the Almanac.

The Lectures, both Ordinary and Honor, are, as a rule, chiefly devoted to the new business of the Term.

16. *Privileges of Honor Students.*

As stated before, in any Term of any year students may substitute an Honor Course of Lectures for the corresponding ordinary Lectures. In the Freshman years Honor Lectures in Logic may be substituted for the ordinary Lectures in Mathematics.

Any student who shall have obtained 30 per cent. in Mathematics, in English Composition, in Latin, and in Greek or French or German at the Junior Exhibition Examination will be allowed in the two Freshman years to keep a Term by Lectures (on the written recommendation of the Lecturer) if he attends with diligence a course or courses of Honor Lectures, consisting of not less than five lectures weekly; and if he obtains an Honor in any subject, he will be allowed credit for a Term by Examination, except for the Final Freshman Examination. In the case of Modern Literature, students claiming the above privilege are required to take two out of the five subjects of the course, viz.: English Literature, French, German, Italian, or Spanish.

Junior Sophisters may obtain credit for a Term by Lectures by attendance to the satisfaction of the Lecturer or Lecturers at any complete course of Honor Lectures.

Senior Sophisters who obtained an Honor in the Junior Sophister year may obtain credit for a Term by Lectures by attendance to the satisfaction of the Lecturer or Lecturers on any group of Honor Lectures corresponding to a Moderatorship Course.

Sophisters may obtain credit for a Term by Examination (other than the Degree Examination) by obtaining a first Honor in any course or group of courses corresponding to a Moderatorship Course.

NOTE.—Only such courses of Lectures or groups of courses as consist of not less than five Lectures weekly are recognised as giving exemption under the foregoing rules.

In all cases in which credit for Term by Lectures is sought under the foregoing rules, students must notify the fact to the Lecturer at the beginning of Lecture Term. If at the end of Term the Lecturer is satisfied that such students are entitled to credit for the Term, he will make a written recommendation to that effect to the Senior Lecturer.

17. *Catechetical Terms.*

The Catechetical Examinations are held on the day following the Term Examinations.

Catechetical Terms may be kept by Lectures, which commence at 9.30 a.m. in the Examination Hall on the days appointed

in the Almanac, and are continued at the same hour on the succeeding Saturdays.

18. The Languages required during the Freshman years, in addition to Latin, are one of the following:—Greek, French, German, Irish.

By permission of the Senior Lecturer, a student may be allowed to present Italian, Spanish, or Russian, as a Modern Language at any ordinary Examination. The courses in Italian and Spanish are given in § 34.

The Examinations in Modern Languages are partly *vivâ voce* in the prescribed books; and partly by papers containing passages (unprescribed) for translation from these languages, and passages for translation from English into the same.

Latin Composition forms a part of every Latin Examination. In the translation of selected passages from the Classical authors, separate weight will be allowed for the style of the English Composition.

The books named under English Composition are intended to supply subjects for English Composition. A few questions will also be set on the substance of the books.

The letters *p.* or *v. v.*, or *p. & v. v.*, added in parentheses after a subject in the Freshman years, denote that the Examination in that subject is usually conducted by *papers*, or *vivâ voce*, or in *both ways*.

19. Junior Freshman Year.

Throughout the Junior Freshman year, a Student without Privileges, keeping a Term by Examination, must answer in all the prescribed subjects; and keeping a Term by Lectures, must attend two Courses of Lectures, one Course in Science and one in Languages.

The minimum standards of Classes are:—First Class, 60 *per cent.*; Second Class, 50 *per cent.*; Third Class, 40. Of the remaining Candidates, those whose answering is considered by the Senior Lecturer to be sufficient are allowed the Examination, and their names are arranged in alphabetical order as Unclassed Candidates.

The Jellett Prizes for General Answering, value £5 and £3 respectively, are awarded on the result of this Examination (see "Jellett Prizes").

The award of the Senior Exhibitions depends partly on the marks obtained at this Examination (see "Senior Exhibitions").

21. Privileges of Students in the Freshman Years.

(a) For privileges granted to Honor Students, see § 16.

(b) A special Arts Course has been arranged for Medical and Dental Students. See "Arts Course of Medical and Dental Students."

(c) Engineering Students may substitute the Mathematical Lectures of the Engineering School for the Ordinary Science Lectures of the Junior Freshman or of the Senior Freshman Year, and in the Michaelmas Term of the Senior Freshman Year may substitute the Lectures in Formal Logic for the Lectures in Languages.

22. Junior Sophister Year.

In the Junior Sophister Year the subjects for Lectures and Examinations are divided into Groups A, B, C, D, E; see § 25.

Keeping of Terms by Lectures.

A student without Professional Privileges obtains credit for a Term by attending courses of Lectures in two subjects which must be chosen from different groups.

The subjects on which Lectures are delivered each Term are given in § 25.

Each of the five languages, Greek, Latin, French, German, Irish, is represented by one half-course of Lectures, and attendance on two half-courses is necessary to keep the Term in Languages.

To obtain credit in Experimental Physics or Chemistry, Junior Sophisters must attend Lectures as well as Laboratory Instruction. A fee of one guinea must be paid to the Junior Bursar for each Term for Laboratory Instruction in Chemistry.* The Term in Experimental Physics or Chemistry cannot be kept by attendance on Lectures during Trinity Term.

In the Senior Sophister year a student cannot keep a Term *by Lectures* in a subject of Group D unless he has, as a Junior Sophister, kept at least one Term in the same subject. No such restriction, however, applies to Examinations.

To obtain credit in History, Junior Sophisters must attend the Lectures in Constitutional History and in Economic History, and must pass an examination in the work of the Term.

The arrangements as to all Lectures in subjects by attendance on which Terms may be kept are posted on the Tutors' doors some days before Lectures begin.

* Students in Arts may attend the Lectures in Chemistry without payment for the same, but shall pay a fee of one guinea per Term for Laboratory Practice and Instruction, being liable, in addition, to pay for breakages; and persons not on the College Books, if admitted by the Board, shall pay two and a half guineas per Term for Lectures and Laboratory Practice and Instruction.

Keeping of Terms by Examination.

In order to get credit for any examination, a Junior Sophister must pass in English Composition and in three subjects, not more than two of which may belong to the same Group.

In the Sophister years the examination in every course except English Composition is usually conducted both *by papers* and *vivâ voce*.

Any two of the five languages, Greek, Latin, French, German, Irish, count as one subject.

A Student selecting French or German will be required to write a translation from English into French or German, in addition to answering in the books named in § 25.

23. Professional Privileges.

Junior Sophisters, not Divinity Students, who are keeping a Term in Arts by Lectures (or by the Examination at the commencement of the following Term), can obtain Professional Privileges by—

(a) Attending, during the Term, three-fourths of the Lectures of two of the Professors of Law, and passing the Examination held at the conclusion of those Lectures.

Or,

(b) Attendance at three-fourths of the Professional Lectures of the Engineering School during the Term.

Or,

(c) Attendance, during the Term, as Candidates for Indian Civil Service, on two full Courses of the Special Lectures provided by the College for such Candidates.

Or,

(d) Attendance, during the Term, on three-fourths of each of three Courses of Lectures in the School of Agriculture.

But no Professional Privileges are allowed for a second attendance on the same course of Professional Lectures.

24. Junior Sophisters having Professional Privileges.

Keeping of Terms by Lectures.

A Junior Sophister having Professional Privileges obtains credit for a Term by attending Lectures in any one of the subjects as arranged for each Term; see § 25.

Keeping of Terms by Examination.

A Junior Sophister having Professional Privileges obtains credit for a Term Examination by passing in English Composition, and

in two subjects taken from different Groups; provided always that an Engineering student may take two subjects belonging to the same group, except in the case of Group D, from which he can select one subject only.

28. Senior Sophister Year.

In the Senior Sophister year the subjects are divided, as in the Junior Sophister year, into Groups A, B, C, D, E. See § 31.

(¹) Students are recommended to study in the Zoological Museum, as they are liable to be examined practically in such specimens as do not require the microscope for their recognition.

(²) Students are recommended to apply to the Professor of Botany for material illustrating the Course, as a practical acquaintance with the plants mentioned in the above Syllabus is indispensable.

Keeping of Hilary or Trinity Term by Lectures.

In the Senior Sophister year a Student obtains credit for a Term by attending Courses of Lectures in two subjects which must be chosen from different Groups.

To obtain credit in Political and Economic Science, Senior Sophisters must attend the Lectures in Political Science and in Economics.

In Experimental Physics and Chemistry, Laboratory attendance is necessary, as in the Junior Sophister year, and the arrangements as to Chemistry Fees are the same also.

No Senior Sophister can obtain credit for attendance on Lectures in Experimental Physics or Chemistry who has not obtained credit for a Junior Sophister Term in the same subject; and no Senior Sophister can obtain credit for attendance on Lectures in Geology who has not, as a Junior Sophister, obtained credit for Botany and Zoology. To keep the Term in a subject of Group D requires attendance during three days per week only.

Keeping Senior Sophister Terms by Examination, and passing the Degree Examination.

In order to get credit for the Hilary or Trinity Term Examination, or for the Degree Examination, a Senior Sophister must pass in English Composition, and in four other subjects, one at least of which must be taken from Groups A, B, or D.

At each Degree Examination, those Students who obtain 45 per cent. and upwards, and whose answering in the several subjects is considered satisfactory by the Senior Lecturer, are distributed into three Classes, the names in each Class being arranged in the order of the percentages obtained. The minimum standards for Classes are:—First Class, 65 per cent.; Second Class, 55 per cent.; Third Class, 45 per cent.

Of the remaining Candidates, those whose answering is considered by the Senior Lecturer to be sufficient are allowed the Examination, and their names are arranged in alphabetical order as Unclassed Candidates.

Candidates placed in the First Class who have passed in the full course for the Degree Examination without claiming Professional Privileges are called Respondents, and are entitled to receive honorary Testimonials, which are publicly presented to them by the Chancellor or Vice-Chancellor, at the Commencements at which they are admitted to their Degrees, and their names are permanently recorded in the Calendar immediately after those of the Moderators.

Medical and Dental Students who claim Professional Privileges at the Degree Examination are classed according to the marks which they obtain in the Arts and in the Professional portions of this Examination, taken together.

The Degree can also be obtained on the result of the Moderatorship Examination: see § 34.

A Candidate whose name is on the books of the College, and who has passed the Degree Examination, can present himself at any Commencements, in order that the Degree may be conferred upon him, provided that he shall have paid the Degree Fee of two pounds to the Junior Bursar on the day before the Commencements *at latest*. If his name be not on the Books, he must also pay the Replacement Fee of fifteen shillings to the Junior Bursar.

29. Professional Privileges in the Senior Sophister Year.

At the Hilary and Trinity Examinations, *Divinity Students* obtain Professional Privileges if they have credit for full attendance on the Lectures of Archbishop King's Professor, or the Regius Professor, and one of the Assistants, during the Term preceding the Examination at which they present themselves; but at the Degree Examination they obtain Professional Privileges only if they have credit for a similar professional attendance for the *entire year* (*i. e.* the *three Terms*) either preceding the December Degree Examination of their Class,^a or preceding the Degree Examination at which they present themselves.

At the Michaelmas and Hilary Lectures, and the Hilary and Trinity Examinations, *Law, Engineering, Indian Civil Service, and Agricultural Students* who fulfil the conditions in (a), (b), (c), or (d), of § 23, obtain Professional Privileges; but at the Degree Examination they obtain Professional Privileges only if they have credit for Professional attendance as specified in (a), (b), (c), or (d), § 23, for the *entire year* (*i. e.* the *three Terms*) either preceding the December Degree Examination of their Class,^a or preceding the Degree Examination at which they present themselves; provided that, in the case of Law Students, they have also credit for the General Examination held in Trinity Term.

The Arts Course of *Medical and Dental Students* is given under that heading.

An Engineering Student who has passed his Engineering Degree Examination is granted Professional Privileges in his Senior Sophister year, and at his Degree Examination.

30. Senior Sophisters having Professional Privileges.

Keeping of Hilary or Trinity Term by Lectures.

In order to get credit for a Term of Lectures, a *Divinity Student* must attend Courses in two subjects from different Groups; one of these subjects must be either Greek and Latin, or Greek and Hebrew. Or he may substitute for Classical Lectures an Examination at the conclusion of the Lectures. The ordinary Lectures in Greek are on Mondays, Wednesdays, and Fridays, and in Latin on Tuesdays, Thursdays, and Saturdays

^a That is at the Michaelmas, Hilary, and Trinity Terms of their Senior Sophister Year.

in the Senior Sophister year. The Hebrew Lectures are on Tuesdays and Thursdays.

1. In order to get credit for a Term of Lectures, *any other Student who has Professional Privileges* shall attend a Course of Lectures in any one subject (except in the case of Law Students, Political and Economic Science, and in the case of Engineering Students, Experimental Physics and Chemistry).

Keeping of Hilary or Trinity Term by Examination, and passing of the Degree Examination.

Divinity Students having Professional Privileges may obtain credit for a Senior Sophister Term Examination, or for the Degree Examination, by passing in English Composition and in three subjects, one of which must be Classics.

In order to get credit for a Senior Sophister Term Examination, or for the Degree Examination, other students who have Professional Privileges must pass in English Composition and in three subjects. An Engineering Student may not take more than one subject from Group D.

35. Honors and Prizes.

A number of Studentships, Scholarships, Exhibitions, Prizes, Honors, and Sizarships, are awarded each year to deserving Students, both in the Arts Course and in the Professional Schools. A summary of these is given further on ; see "Summary."

It is a condition precedent to the award of every Prize that sufficient merit must be shown.

Some of the Honors and Prizes specially connected with the regular Undergraduate Course are enumerated below. For further particulars concerning these and the other Prizes, see 'Honor Courses,' 'Scholarships,' 'Moderatorships,' and 'Special Prizes.'

For Prizes obtainable in connexion with Entrance, see § 4.

Prizes obtainable at Lectures.

In the Freshman years two premiums of the value of £1 10s. in books are awarded, one in each class, each Term, for proficiency in Classical Composition, on the recommendation of the Lecturer, to students who have attended not less than five-sixths of the Honor Lectures in Classics and in Classical Composition. No student can obtain more than one prize in any one academic year. Similar prizes are similarly awarded to students in French and to students in German.

The Professor of English Literature is authorized to recommend for two Prizes of the value of £1 10s. each in books, in Composition, the best Candidates among the Students attending his Class during the Term, one for Freshman Students and the other for Sophisters.

Catechetical Premiums.

Catechetical Premiums of the value of £2 in books are awarded in accordance with the conditions given under 'Catechetical Course.'

Term Honor and Prize Examinations.

In each Term, Examinations are held, at which Honors of the First and Second Rank are awarded to Candidates who exhibit sufficient merit. In Michaelmas Term, Prizes to the value of £4 and £2 are awarded to the Candidates who obtain First

and Second Honors respectively.^a The successful Candidates can select Books, to the value of their Prizes, at the University Booksellers, and can have the College arms stamped on the covers of bound Books ; or in the case of Prizes in Experimental or Natural Science, Scientific Instruments, with an inscription thereon, may be substituted for books, if approved by the Senior Lecturer on the report of the Professor.

The marks at certain of these Examinations count towards the Senior Exhibitions (see under 'Senior Exhibitions').

Subjects of Honor and Prize Examinations.

(a) Mathematics.	(g) English Literature.
(b) Classics.	(h) French.
(c) Mental and Moral Philosophy.	(i) German.
(d) Experimental Science.	(j) Italian.
(e) Natural Science.	(k) Spanish.
(f) History and Political Science.	(l) Legal and Political Science.
	(m) Old and Middle Irish.

No Student who has dropped a Class will be allowed to present himself, as a Candidate for Honors, at any Examination, in a subject in which he has previously obtained Honors at the corresponding Examination of the Class from which he has dropped.

All students desiring to compete at any Honor or Prize Examination in any Term are required to give notice to the Senior Lecturer, at least one fortnight before the last day of Lectures in the preceding Term, of the particular Examinations at which they intend to present themselves.

The dates of Honor and Prize Examinations in any Term are not given in the Almanac, but, after the required notices have been received, a programme is published before the end of the preceding Term.

In special cases the Senior Lecturer may (should it be found possible) admit to Honor or Prize Examinations Candidates who have given tardy notice fourteen days before the date of the Examination, on payment of a fine to be fixed by him, not exceeding 20s.

Moderatorship and Medal Examination.

A Student who desires to graduate in Honors at the Degree may substitute one of the Moderatorship Examinations for the ordinary

^a Resolution of the Board :—

"It is ordered by the Board that the Students who obtain College Premiums may direct the College Booksellers to procure for them any suitable books as Premiums which continue to be offered for sale in the priced catalogues of London, Dublin, or Edinburgh, and at the prices marked in the said catalogues ; and when the selling price of a book is recognised by the Trade as having fallen below the publication price, the College Booksellers are to supply the book at such recognised reduced price.

"This notice is to be printed and put in two conspicuous places in the Booksellers' Shops."

Degree Examination. Moderatorships are granted in groups of the subjects of the Honor Courses, and in Engineering Science.

Of the successful Candidates in the several departments, there are two ranks, called Senior and Junior Moderators.

The Senior Moderators receive gold medals, and the Junior Moderators silver medals ; which are given to them publicly before the University, by the Chancellor or Vice-Chancellor, at the Commencements at which they are admitted to their Degrees. The first Senior Moderator in each department receives a large gold medal, if recommended by the Examiners and their recommendation be approved by the Board.

Prizes are also awarded to the Moderators in order of merit.

A Student who has dropped a Class after the Michaelmas Examination of the Junior Sophister year, or who has dropped more than one Class, will be allowed to compete at any of the Moderatorship Examinations, but, if successful, he will not be given a medal, nor will he be placed in order of merit amongst the Moderators, but will be added to the list as a Supplemental Moderator, Senior or Junior ; and he will not be entitled to the Exhibition of £10, awarded to Scholars who become Senior Moderators (see under " Exhibitions awarded to Scholars ").

A Student who would not be entitled to present himself at the ordinary Degree Examination until January, will not be permitted to compete for a Moderatorship unless he previously obtains the special permission of the Board.

A Student who fails in obtaining a Moderatorship may nevertheless be allowed the Degree on his answering at the Moderatorship Examination, provided a special recommendation to that effect be made by the Court of Examiners, and his name may then be placed at the foot of such class as the Senior Lecturer may determine.

No Student will be allowed to be a Candidate at the Moderatorship Examination unless his Fees for the current half-year shall have been paid before the first day of Examination.

All Candidates for Moderatorship are required to give notice to the Senior Lecturer of their intention to compete, stating the Courses in which they desire to present themselves, and the Special Subjects (if any) which they are taking. This notice must be given on or before June 15th of the year in which they intend to compete.

The dates of each Moderatorship Examination are not published in the Almanac. The Senior Lecturer, after receiving the information required on or before June 15th, arranges the dates and periods of each Moderatorship Examination, and publishes them before the end of Trinity Term.

In arranging the time table for Moderatorship Examinations, care is taken to afford equal opportunities to candidates for Studentships.

It is the duty of the Courts of Examiners for the several Moderatorships to secure that in the case of alternative papers an approximately uniform standard shall be maintained.

A Student who has passed for his Degree, either at the ordinary Examination, or at a Moderatorship Examination at which he has failed to obtain a Moderatorship, will be allowed to compete for a Supplemental Moderatorship within two years. An extension of that period can be granted only by special permission of the Board.

A Graduate who has obtained a Moderatorship at his Degree shall be allowed to compete for a Supplemental Moderatorship in another subject in either of the two following years, he replacing his name for the Examination and paying the current half-yearly fee.

Catechetical Course.

Provision has been made for the religious instruction of Students. Catechetical Lectures commence on the days specified in the University Almanac, at half-past nine o'clock, and are continued on Saturdays during Term at the same hour, for the two Freshman Classes only. Catechetical Examinations are held at the beginning of each Term (immediately after the Term Examinations) for the benefit of those Students who have not been resident during the preceding Term.

Rules relating to Catechetical Terms and Examinations.

To get full credit for Catechetical Terms, with certificates of the same, four Terms are to be saved in the Freshman years, either by Lectures or by Examinations. Omitted Terms may be supplementalized in the Sophister years for special reasons to be approved of by the Catechist. In such cases credit for two Terms within the same College Term will only be given if one of the two is kept by Lectures and the other by Examination.

Parents and guardians who desire that students under their charge shall attend Catechetical Lectures or Examinations should notify the Catechist, who will inform them as to what lectures or examinations are attended.

To a Student who exhibits peculiar merit, either at Lectures or at an Examination, a Premium in books of the value of £2 is awarded, unless such a Premium has been previously obtained in the same year, in which case a Certificate is awarded instead.

The fact of having obtained a Prize in the earlier part of the year does not debar a Senior Freshman from being awarded one of the Prizes offered at the end of Trinity Term, or at the Michaelmas Examination.

At all Examinations for Catechetical Prizes there shall be a paper as well as an oral examination.

Catechetical Lectures and Examinations are conducted by (a) Fellows of the College, being Members of the Church of Ireland; (b) Professors or Lecturers in the Divinity School; (c) Ministers nominated by the Presbytery of Dublin whose names have been submitted to and approved of by the Board; and (d) by any Presbyterian Fellow of the College appointed by the Catechist.

The Board of Trinity College are willing, on due application being made to them by the heads of other religious denominations, to make similar arrangements for the religious instruction of Students of such denominations.

Subjects of Catechetical Examinations.—The following Table contains the subjects of the Catechetical Lectures and Examinations:—

N. B.—The subjects printed in Italics are to be considered as additional for Honors, and are not required generally.

2. They are admissible to all Lectures and Examinations, and are eligible for prizes in the Schools of Arts, Law, Physic, and Engineering.

3. In the School of Physic they practise dissections separately from Men, and are not allowed to begin the study of Anatomy or Physiology, or to attend hospitals, until they have reached the age of eighteen years. For other medical lectures, the Professors make such arrangements in regard to Women as they think fit, subject to the approval of the Board.

4. Women pay the same fees as Men, in Arts, and in the Professional Schools.

5. They are not eligible for Fellowship or for Foundation Scholarships, but non-Foundation Scholarships are open to them.

4. DISCIPLINARY REGULATIONS FOR WOMEN STUDENTS.

As Women Students are now equally admissible with Men Students to Lectures, Examinations, and to the privilege of reading in the Library, they are equally subject to the College Discipline and Statutes; and, in particular, they are required to observe the following regulations:—

TRINITY HALL.

RESIDENCE FOR WOMEN STUDENTS.

In the year 1908 the house and grounds, now known as Trinity Hall, were acquired by the University, and established as the official residence for those Women Students who do not reside with their parents or guardians. The adjoining house and grounds were purchased in 1910 by John Purser Griffith, M.I.C.E., and Mrs. Griffith, and presented to the University, in memory of Frederick Purser, M.A., F.T.C.D. In the grounds, which are about 10 acres in extent, the Dublin University Ladies' Hockey and Tennis Clubs have their field and courts; and Trinity Hall thus serves as one of the centres for the use of all Women Students, whether resident or non-resident.

Trinity Hall has direct tramway connexion with Trinity College either by the Palmerston Park or by the Dartry Road line.

Fees for the term of ten weeks for full board and residence, with a study bedroom, are from £23 10s. to £28 10s., according to the size of the room. There are a few double rooms, for which each of the joint-owners pays £23 10s.. Personal expenses, such as laundry, are not included in these fees.

Further particulars may be obtained from the Warden, Miss Cunningham, M.A., Trinity Hall, Dartry Road.

§ 11.—CLASSICS.

The principle on which the Honor Examinations in Classics are conducted is to test the proficiency of the Student on the following points :—

First. As to his minute and critical knowledge of certain defined portions of the Greek and Latin authors.

Secondly. As to his general and independent knowledge of the Greek and Latin languages, and their literature, to be proved by his ability to write an accurate version of passages from the prescribed Honor Course, and also from Classical works not prescribed; as well as to answer, in writing, general questions connected with the languages, and their literature.

Thirdly. As to his power of expressing the full meaning and force of an ancient author, by writing such a translation of a given passage as may deserve commendation, not merely for its correctness as a version of the original, but for its excellence as a piece of English Composition.

With these objects in view, the manner of conducting the Classical Honor Examinations is as follows :

1. Candidates for Honors will be separately examined, *virâ voce*, in the portions of the Honor Course marked in Italics in the following Table.

2. Passages will be proposed for written translation, taken from the works of the Greek and Latin writers named in the following Table :—

The regulations originally drawn up by the Board with respect to this Lecture have been altered from time to time, so that they are now as follows:—

The appointment of the Lecturer is made by invitation of the Board, one year in advance, on a day not later than the last Saturday in November in each year

The subject is agreed upon by the Board and the Lecturer, and treated of in not less than three Lectures, which are delivered in one of the public Halls of the College.

The salary of the Lecturer consists of the interest on £1200 for one year, amounting to about £65, and is paid to him, after he shall have delivered the whole number of Lectures, by the Bursar, at such times and in such sums as the interest is received.

Election to Fellowship and Scholarships.

The rules determining the conditions of election to Fellowship are set forth in Chap. VII. of the College Statutes, and have been modified by the following Ordinances :—

EXTRACT FROM AN ORDINANCE CONCERNING THE ELECTION OF FELLOWS, &C.

[May 24, 1920.]

Elections to Fellowship shall be held as frequently as the Board shall from time to time decide to be requisite for the maintenance of a sufficient staff of teachers, and in the general interest of the College, but so that the total number of Fellows—Senior and Junior—shall not be allowed to fall permanently below twenty-seven (exclusive of Professors elected to Fellowship under the provision of 1 Geo. V, 4 (7) (e), and of Honorary Fellows). And if in any year the number of Fellows shall by the resignation, retirement, or death of one or more Fellows fall below twenty-seven, then the Board shall not later than the first day of October next following take steps towards the election of one or more Fellows to make up the number, either according to the method hereinafter described or under the power of electing without examination conferred by the Ordinance of March 29th, 1916.

Except in the cases of election under the Ordinance of March 29th, 1916, and of the election of Professors to Fellowship under the provision of 1 Geo. V, 4 (7) (e), and of the election of Honorary Fellows, all Fellows shall be elected in the following manner :

Not less than six months before Trinity Monday of any year in which the Board shall determine to hold an election to Fellowship, the Board shall give public notice of the subject or subjects in which they propose to elect a Fellow or Fellows. Only such persons shall be eligible as have held a Lectureship or Assistantship in the University of Dublin for at least two years, or shall have received special permission from the Board to offer themselves for election. In electing to these Fellowships the Board shall have regard to the attainments and qualifications of each candidate agreeably to the Statutes of the College, and to the ability which he has shown as a Lecturer, and to the requirements of the College at the time, as well as to the results of the examination referred to in (a) and (b).

(a) The fitness of the candidates shall be examined shortly before the date of election in such subjects and in such manner as the Board shall in each case determine by Examiners appointed for that purpose.

(b) The Examiners shall report to the Board on the merits of each candidate, and the Board shall after considering their report proceed to election in the form and manner prescribed by the Statutes : but if in the judgment of a majority of the Board sufficient merit has not been shown no candidate shall be elected.

ORDINANCE EMPOWERING THE BOARD TO ELECT FELLOWS WITHOUT EXAMINATION.

[March 29, 1916.]

It is ordained by the Board of Trinity College, Dublin, with the written assent of a majority of the Fellows and the approval of the Visitors, that election to Fellowship may be made by the Board as may to them seem advisable in the interests of the College, not oftener than once in three years, after an estimate of the merit of candidates without examination, such candidates to be otherwise qualified according to the statutes: provided always that Fellows so elected shall have priority on the Roll of Fellows according to priority of election: and that for the purpose of giving effect to this ordinance the following rules shall be adopted and published, that is to say:—

Not oftener than once in three years a Fellowship may be awarded on grounds of distinguished merit, as shown primarily by the candidate's published work: provided always that no person shall be elected to such a Fellowship without the assent of a majority of the Fellows. In regard to such elections the Board shall announce beforehand what subject or subjects will be regarded as most important, and shall be guided by the requirements of the College at the time, and assisted by the report of a committee to be appointed by the Board to advise the Board upon the merits of the candidates. On this committee experts additional to those upon the College staff may be invited to serve. A candidate shall be selected by the Board after they have considered the report of the Committee, and the Board shall elect as soon as the required assent of the majority of the Fellows has been obtained.

Before the day of election every Candidate for Fellowship must send to the Provost his name, and the name of the county in which he was born.

FOUNDATION SCHOLARSHIPS.

Men are elected to Scholarships for merit in Classics or in Mathematics or in Experimental Science or in Modern Languages or in Natural Science or in History and Political Science, or in Mental and Moral Philosophy. In order to distinguish them from the holders of other Scholarships, they are termed Scholars of the House, or Scholars on the Foundation. The number of such Scholars is seventy, and they have important privileges. They receive from the College an annual salary of £20 Irish money; they have their commons free of expense, and their rooms for half the charge paid by other Students.*

* This does not apply to that portion of the rent imposed to defray expenses incurred in papering or painting.

The tuition fees of Pensioners who are elected to Scholarships is one guinea per quarter, and of Fellow-Commoners, two guineas. They hold their Scholarships until the end of the June Quarter of the fifth year following their election, or following the time at which they become or might have become Masters of Arts, whichever period terminates first. All fees payable by Scholars for Tuition terminate after the quarter in which they take the Degree of Bachelor of Arts.

Exhibitions awarded to Scholars.

Any Scholar who has not dropped a Class after the Michaelmas Examination of his Junior Sophister year, nor dropped more than one Class, and who obtains a Senior Moderatorship at the Degree Examination, and does not obtain one of the Studentships, is awarded one of certain Exhibitions of small value, to which Students are appointed by the Board, if such be then vacant, and such further Exhibition as shall raise the entire annual value of his Exhibition to £10. The Exhibition is tenable for three years, provided the holder's Scholarship lasts so long.

Waiterships. -

Before and after meat, grace was formerly said by certain of the Scholars in turn, who were called *Waiters*. This obligation was done away with by the Act 36 Victoria, chapter 21.

Ten Scholars, or other Students, are now annually appointed to say grace before and after meat in the Commons Hall, on the following conditions:—

1. They shall each receive a salary of £10 per annum, to be paid quarterly, if the duty has been satisfactorily discharged.
2. They shall be annually selected by the two Deans, and the names of those selected shall be submitted to the Board for appointment to the office.
3. Regard shall be had, in the selection, to the general character of the Student for regularity, steadiness, and general good conduct, as such qualities are the best security that the duties of the office will be properly discharged.

The grace must be repeated *memoriter* and in Latin, in a form prescribed by the Statutes of the College.

Keeping of Terms by Scholars.

The following Rules have been passed by the Board, with regard to the attendance by Scholars at Lectures:—

I. *Graduates*.—All Scholars who have actually passed the B. A. Degree Examination are exempted from suspension for non-attendance at Lectures.

II. *Undergraduates*.—1. Every Undergraduate Scholar shall be required to keep each Term, by attendance either at Lectures, or the subsequent Examination, on pain of being conditionally suspended.

2. Full attendance on the Lectures of the University Professors, such as would prove that an Undergraduate Scholar is engaged *bonâ fide* in preparation for the Moderatorship or Indian Civil Service Examinations, or in professional studies, shall be held sufficient to exempt him from suspension for that Term.

3. Any Undergraduate Scholar who shall have been conditionally suspended under the foregoing rule shall be restored on obtaining an Honor at a subsequent Examination.

4. Any Undergraduate Scholar who shall remain conditionally suspended for three Terms shall absolutely forfeit his salary for the past year, unless he shall produce to the Board satisfactory excuses for his neglect.

5. No student can compete for a Scholarship until after his name has been entered on the College books as a Junior Freshman, *i. e.* he cannot compete as a *rising* Junior Freshman. (See "Course in Arts," § 5.)

6. Any Scholar who shall fail to keep the Terms and Examinations necessary to enable him to proceed with his Class shall *ipso facto* forfeit his Scholarship, and no Scholar can have his name transferred to a lower Class without the express permission of the Board.

NON-FOUNDATION SCHOLARSHIPS FOR WOMEN.

As the Foundation Scholarships in Trinity College are tenable only by men, and it was desirable that Scholarships should be established for women :

It was decreed by the Board, with the approval of the Council and the consent of the Visitors, in Michaelmas Term, 1904 :

I. That Scholarships shall be established for women.

II. That, with the approval of the Council, the subjects of Examination for such Scholarships shall be the same as for the Foundation Scholarships hereinbefore mentioned, and that the Examinations for both shall be held at the same time and place.

III. That the value of such Scholarships shall be £30 a year, with exemption from ordinary College Fees, save the Tuition Fees of one guinea per quarter for which the Foundation Scholars are at present liable.

IV. That the period of tenure of such Scholarships, and the period during which the Tuition Fees shall continue to be payable, shall be the same as in the case of the Foundation Scholarships.

Mode of Election.

1. On or before the day of election every Candidate for Scholarship must send to each member of the Board or to the Registrar, his name, and the name of the county in which he was born. The form in which this is generally done is as follows:

Ego, A.B. — filius, natus in comitatu N., sub ferula — educatus,
Discipulatum a te humillime peto.

No Candidate for Scholarship will be regarded as eligible unless he has paid the April current half-yearly fee of his class. This rule not to apply to Sizars.

2. The Examination for Scholarships is held on such days, not being less than four in number, in the seven week days preceding the commencement of Lectures in Trinity Term, as the Board shall fix and promulgate, at least ten months beforehand.

3. Candidates for Scholarships in Mathematics are examined in all the Pure and Applied Mathematics of the Undergraduate Honor Course for which a Junior Sophister Student would have been liable from his entrance up to the Trinity Examination of the Junior Sophister year inclusive. Studentships and Prizes awarded at the Degree and Final Freshman Examination.

STUDENTSHIPS.

Two Studentships of the value of £100 a year for five years are awarded each Michaelmas Term, in accordance with the following regulations :—

I. One student is elected from among the Senior Moderators in Mathematics and one from among the Senior Moderators in Classics.

II. (1) In addition to their answering in the primary Courses, Mathematics and Classics, the answering of the Candidates in one other Moderatorship Course is taken into account.

(2) Those who take Mathematics as a primary Course may take Classics as their secondary Course, and *vice versâ*.

(3) The weight assigned to the Primary and Secondary Courses respectively is in the proportion of 3 to 2.

(4) A minimum (of one-fourth of the total weight of each Course) is fixed ; and the merit of Candidates is measured by the excess of their answering above that minimum.

III. No Undergraduate who has dropped a class after the Michaelmas Examination in his Junior Sophister year, or who has dropped more than one class since Matriculation, is eligible for a Studentship.

IV. The Board has power to decline to elect to a Studentship, or to award a Studentship of reduced value, in case of insufficient merit; and also to divide the emoluments of a Studentship in cases of equality or closeness of answering between the candidates.

V. Holders of Studentships are required to lecture in the College one hour a day during Term, unless specially exempted by the Board.

VI. If a person holding a Studentship is elected to a Fellowship of Trinity College, Dublin, or of any College in the Universities of Oxford or Cambridge, his Studentship is thereupon vacated.

No change will be made in these regulations without a year's notice.

MODERATORSHIP PRIZES.

IN addition to the two Studentships which are annually filled up, Prizes of value not less than £50 may be awarded to Students who shall have specially distinguished themselves at the Moderatorship Examinations, but, in general, conditions as to research or study will be imposed upon those to whom the award is made.

THE KING EDWARD PRIZE.

A Prize of £10 was instituted by the Board in 1903 in commemoration of the visit of His Majesty King Edward VII to Trinity College in that year.

It is awarded to the best answerer among the Respondents at the Degree Examination held in the month of December, who shall have answered in the whole Course, and have not been given any special concession or privilege. No student is eligible who has dropped more than one class during his Undergraduate Course, or who has dropped a class after the Michaelmas Examination of his Junior Sophister year.

BROOKE PRIZES.

IN 1879 Prizes were founded by the Misses Brooke to be given annually to the Candidates for Moderatorship who rank next in order to the Moderators who are elected Students for Mathematics and for Classics.

The Fund yields annually about £89; and the Prizes are payable in half-yearly instalments in March and September.

JELLETT PRIZES FOR GENERAL ANSWERING.

THE Rev. John Hewitt Jellett, D.D., late Provost of Trinity College, awarded Prizes for General Answering from 1884 to 1887. In the year 1889 the Rev. George Salmon, D.D., Provost of Trinity College, provided a fund for the payment of these Prizes. The Prizes are awarded under the following Regulations:—

Two Prizes for General Answering are given at the Final Freshman Examination held at the end of the Trinity Term of

the Senior Freshman year. No Student is eligible for either of these Prizes who shall be elected to a Senior Exhibition, or who is excluded by the College Rules from competing for a Senior Exhibition. Subject to these exceptions, the Prizes are awarded to the two Students respectively who obtain the highest aggregate of marks at the above-mentioned Examination, provided that this aggregate be not less than 65 per cent. of the total amount of marks obtainable. The Fund produces annually about £8. This is usually divided between the two best answerers in the ratio of 5 to 3, but, in case of equality of merit, the Board may, if they think fit, award a Prize of £4 to each of the two Students.

Special Prizes.

In the case of all Prizes, the Board reserve the power of diminishing the amount of the Prize, or withholding it altogether, if insufficient merit has been shown by the Candidates, and, in the case of Prizes which are payable out of Special Trust Funds, the amount will further depend on the dividends in hand.

MADDEN PRIZE

AND

PREMIUMS AT THE EXAMINATIONS FOR FELLOWSHIPS.

THE Board, at every Fellowship Examination, grant Premiums to such Candidates as appear to them to deserve encouragement, and in such proportions as they consider merited by the answering.

By the will of Samuel Molyneux Madden, dated 7th August, 1782, a bequest was made to provide a prize for the unsuccessful candidate for Fellowship in any year who shall have been adjudged next in merit to the Fellow then elected, on certain conditions. Up to 28th April, 1894, the property devised under the will was vested in named individuals, but on that date the Provost, Fellows, and Scholars were appointed trustees by a decree of the Master of the Rolls. Successive schemes for the administration of the fund were approved by the Lord Chancellor in 1844, and by the Master of the Rolls in 1921; and the conditions under which the Madden Prize is now awarded are the following, all the conditions formerly prescribed being superseded:—

1. A prize, not exceeding four hundred pounds Irish (£369 4s. 8d.), shall be awarded at the Fellowship Examination to the candidate adjudged by the Board to be next in merit to the candidate then elected Fellow, provided that in the opinion of the Board he is "meritorious."

2. It is in the power of the Board to award only a part of the prize of £369 4s. 8d., or to divide it between two or more meritorious candidates, as they think fit.

3. If no meritorious candidate, other than the Fellow then elected, presents himself, the Board may apply the amount of the Prize for that year either (*a*) to the encouragement of research in any department of learning by students of Trinity College, or (*b*) to the provision of a Travelling Scholarship to a Graduate, to enable him to pursue a course of advanced study or research.

4. The surplus of the revenue of the fund, in excess of £369 4s. 8d., at the discretion of the Board from year to year, may (*a*) be applied to any purpose of promoting education, study or research in Trinity College, or (*b*) be added to capital.

5. If in any year no Fellowship Examination is held, the Board may either (*a*) add the revenues of the fund to capital, or (*b*) apply the whole or any part of the revenues, as prescribed in paragraphs 3 or 4; provided that not more than £369 4s. 8d. is applied to the purposes of paragraph 3, and that only the excess of the revenue over £369 4s. 8d. be applied as in paragraph 4.

The total revenue of the fund is now about £424.

Such Candidates are permitted to place their names on the College Books by payment of the excess of the Entrance Fee over the Special Fee of £1, within one week of the election of Exhibitioners, after which the usual charge for tardy payment begins. If a Candidate is elected to an Exhibition, the December payment may be credited to him, at his Tutor's request, as part of his Entrance Fee.

3. No Student who is a Scholar of the House (Foundation or non-Foundation), or who holds a Supplemented Erasmus Smith Exhibition or a Kidd Scholarship, or who has dropped a class since his entrance, is entitled to compete for a Senior Exhibition; and a Student who loses his class or does not keep his name on the College Books forfeits his Exhibition.

6. After the close of the Prize Examinations in Michaelmas Term, the Senior Lecturer adds to the total of the marks obtained by any Candidate for Senior Exhibitions at the Final Freshman Examination—

The minima are fixed as follows:—Mathematics, 15 per cent.; Classics, 25 per cent.; Logic, 40 per cent.; History, 40 per cent.; Experimental Science, 30 per cent.; Natural Science, 35 per cent.; Celtic Languages, 40 per cent.; English Literature, 40 per cent.; French, 40 per cent.; German, 40 per cent.; Italian, 40 per cent.; Spanish, 40 per cent.

In the case of a Student obtaining Honors in the same department at both the Hilary and Trinity Examinations, the highest marks are taken into account.

7. The list of marks thus made up is submitted to the Board by the Senior Lecturer, with the names arranged in order of merit; and the Board elects the sixteen most deserving Candidates as Senior Exhibitioners, provided sufficient merit has been shown.

ERASMUS SMITH EXHIBITIONS.

Of the Erasmus Smith Exhibitions which are tenable at Trinity College, there are two classes, Statutory Exhibitions and Supplemented Exhibitions. For the Statutory Exhibitions, which are awarded without examination, see p. 192.

1. One Supplemented Exhibition of £40 annually, and one of £25 annually, each tenable for five years, are awarded to the best answerers at the Junior Exhibition Examination (see p. 186) who have been pupils for three years at any of the Erasmus Smith Grammar Schools at Drogheda, Galway, and Tipperary; and one Supplemented Exhibition of £25, tenable for four years, is in like manner awarded to the best answerer at the Junior Exhibition Examination who has been a pupil for three years at the High School, Dublin.

2. Candidates must be under 20 years of age on the first day of the Junior Exhibition Examination; and must have remained as pupils at the school from which they compete until the October Entrance (if Pensioners) or until the Sizarship Examination (if Sizarers).

3. Candidates must furnish their names to the Senior Lecturer before the end of the first week in October.

4. A candidate who obtains first place at the Junior Exhibition Examination has his Supplemented Exhibition increased by £10 annually.

5. No Supplemented Exhibition is granted unless merit is shown; and no Exhibition of the amount of £40 unless the candidate is among the first fourteen at the Junior Exhibition Examination or has scored at least 45 per cent. on the average.

6. The holder of a Supplemented Exhibition must keep his name on the College Books, proceed regularly with his class, and obtain in each academic year one honor of the first rank or two of the second rank. The gaining of his Exhibition is reckoned as equivalent to a second honor in his Junior Freshman year, and of a Moderatorschip to a first honor in his Senior Sophister year. The gaining of a Scholarship counts as a first honor in any year. A student on the books of any Professional School is regarded, for the purposes of his Exhibition, as on the College books; and a "Pass with Credit," certified by the Registrar of the School, entitles him to retain his Exhibition."

7. Erasmus Smith Exhibitioners are preferentially given, without payment of rent, rooms of the kind allocated to poor students, when such are vacant; and if they are given rooms of a better class they are charged only £5 annually as rent. The term "rent" does not include charges for furniture and lighting, or "improvement" charges. An Exhibitioner who is also a Scholar of the house cannot claim reduction in rent *both* as an Erasmus Smith Exhibitioner *and* as a Scholar.

For further details as to the tenure of these Exhibitions, and the mode of payment, application should be made to the Registrar of Erasmus Smith's Schools, 40 Harcourt Street, Dublin.

THE JAMES PATRICK KIDD SCHOLARSHIP.

IN 1887 a sum of £2,000 was bequeathed by Mary Lang Kidd to found a Scholarship to be called "The James Patrick Kidd Scholarship."

1. The annual value of the Scholarship is about £80, and is tenable for four years.

2. When the Scholarship is vacant it is awarded to the first in merit of the candidates for Junior Exhibitions, and is subject to the same conditions in regard to the age and collegiate standing of competitors.

3. No Kidd Scholar can hold a Junior Exhibition or a Supplemented Erasmus Smith Exhibition.

4. The Scholarship is forfeited if the holder incurs any heavy collegiate censure, if he fails to proceed regularly with his class (without leave from the Board), or if he fails to attain in any year one honor of the first rank or two honors of the second rank, or such equivalent distinctions as are recognized in the Regulations for Supplemented Erasmus Smith Exhibitions.

The Scholarship will be awarded in 1925.

THE Hon. the Irish Society offers annually to women Students a Scholarship of £60 per annum, tenable for three years in Trinity College, Dublin, subject to the following conditions:—

The Scholarships will be allocated to Students whose means are insufficient to pay the full expenses of a University Course, and preference will be given to a Student who is preparing for the profession of teaching.

The Scholarship is awarded on the marks obtained by candidates in the Senior Grade of the Irish Intermediate Examination.

The age of candidates must not exceed the limit allowed by the Irish Intermediate Board to candidates for Intermediate Exhibitions and Prizes.

Candidates must forward evidence of having been pupils at St. Andrew's College for the time required to the Senior Lecturer before the Examination for Junior Exhibitions begins.

EXHIBITIONS TO WHICH APPOINTMENTS ARE MADE WITHOUT EXAMINATION.

THE following Exhibitions are awarded to Students by the Board without a special Examination; they are paid quarterly through the Tutors, provided that the holders (1) proceed regularly with their class, (2) have their names on the College Books, and (3) are under Master's standing:—

Erasmus Smith Exhibitions.—These Exhibitions were founded by the Governors of Erasmus Smith's Schools, and the foundation was confirmed by Act of Parliament (10 Geo. I., 1723). Students elected by the Board of Erasmus Smith are entitled to priority in appointment to these Exhibitions: and those not so filled are disposed of by the Board. The annual value of a first-class Erasmus Smith's Exhibition is £7 7s. 8d., and of a second-class do. £5 10s. 9d. There are 20 first-class and 15 second-class Exhibitions.

Downes Exhibitions.—Five Exhibitions of £10 annually are available for Divinity Students of narrow means and academic merit.

Worrall Exhibitions.—The Worrall Exhibitioners, in accordance with the will of the founder, are chosen by the Board from poor scholars, who have entered as Sizars, the sons of clergymen in the diocese of Dublin, or, in default of such, the sons of citizens of the city of Dublin. The Fund produces annually about £75, and the annual value of each Exhibition is £9 4s. 8d.

When an Exhibition is declared to be vacant, the Tutors are invited to state to the Board the names of their pupils having the qualifications required by the founder's will, and such other circumstances as may guide the Board in their selection.

Crowe Exhibitions.—Seven Exhibitions of £21 annually are available for Divinity Students, sons of clergymen of the Church of Ireland (preferably from the Diocese of Tuam) intending to devote themselves to the Ministry of the Church of Ireland.

Span Exhibitions.—One Exhibition of £15 annually is available for a student of narrow means.

Avary Exhibitions.—There are two Avary Exhibitions; the annual value of each is £4 12s. 4d.; the Exhibitioners are nominated by the Provost from among the Sizars.

Clanbrassil, Stearne, Parsons, Yelverton, Griffith, and Briggs Exhibitions are elected to by the Board for general collegiate merit, the preference being generally given to Scholars on the foundation. The annual value of each is £4 12s. 4d.

The Stearne Fund yields annually about £50; the funds of the remainder yield a total income of about £26.

As these Exhibitions are payable out of Special Trust Funds which are liable to fluctuation, the Board reserve to themselves the power of discontinuing the payment of them, either wholly or in part, whenever the requisite amount is not forthcoming.

Worth Exhibitions.—These Exhibitions were granted, in 1699, by the Hon. William Worth, of the city of Dublin, who granted for the purpose a charge of £20 Irish upon the funds of St. Stephen's Hospital, Cork, commonly called the Blue Coat School, founded by him.

William Worth appointed that four Students of Trinity College, Dublin, with a preference to natives of the city and county of Cork, should be selected by the Bishop of Cork, the Mayor of Cork, the heir-at-law of William Worth, and the Provost of Trinity College, and the income divided equally between them. In 1890 the Educational Endowments Commissioners framed a scheme for St. Stephen's Hospital, Cork, and directed that the £20 Irish shall be paid by the Governors of the Hospital to the Senior Bursar of Trinity College, and gave the Provost and Senior Fellows power to regulate the conditions, number, amount, and tenure of the Exhibitions.

The Board has decided that the selection of the Students shall be made as heretofore, and that the annual income of £20 Irish shall be divided into two Exhibitions, the Students to be elected for not more than two years, and to be capable of re-election.

Assistance given without Examination to deserv- ing Students.

ASSISTANCE GIVEN BY THE TUTORIAL BODY.

IN the course of each half-year ending with the first Saturday in June or December each Tutor may grant exemptions to his pupils from tuition fees to the extent of four guineas for every complete hundred guineas paid by his pupils during the preceding half-year, provided that he may always grant exemption up to the extent of four guineas as a minimum; and provided also that in the case of future Tutors the approval of the Board be obtained for the exemptions thus given.

THE SALMON FUND.

IN October, 1894, and in subsequent years, Rev. George Salmon, D.D., Provost, transferred sums of money to the Board to form a fund "for helping poor students to pay their College fees, giving preference to sons of clergymen," which now amount to £4932 19s. 7d. The fund is administered by the Provost. Applications for assistance are made to him through the Tutors.

THE FREDERICK PURSER GRADUATES' FUND.

IN Michaelmas Term, 1910, the sum of £4000 was presented by John Purser Griffith, M.INST. C.E., and Mrs. Griffith, to institute a Fund in memory of Professor Frederick Purser, M.A., F.T.C.D. The object of the Fund is to lend at nominal interest to Graduates leaving Trinity College, Dublin, sums of money which may assist them to attain at the outset of their several careers more readily than otherwise to permanent positions.*

The qualifications which will principally be taken into consideration in granting these loans will be—(1) limited means of the applicant and of his or her parents or guardians; (2) such general distinction and character during his or her College course as will serve as a guarantee that the money lent will be applied to what is likely to prove of permanent benefit to the applicant.

* Such as say, to assist an Engineering Student who has graduated in the Engineering School to pay the fee required before he can be apprenticed to a Practising Engineer. This case is merely taken as an example. Any Graduate may apply who requires assistance at the outset of his or her career.

Applications, accompanied by particulars as to the qualifications of the applicant and as to the object and destination of the loan, should be made to the Trustees of the Fund through the Tutor; and the Tutor of each applicant, and some of the Professors or Teachers of Trinity College with whom the applicant has been associated in his or her studies, are to be requested by him or her to send recommendations direct to the Trustees. All communications will be regarded as strictly confidential.

It is only in exceptional circumstances that any single loan will exceed £100. Interest will be charged at one per cent. per annum, payable half-yearly. A recipient of a loan must enter into an undertaking to keep the Trustees acquainted with his or her residence, to pay the interest regularly, and when remunerative employment is obtained to repay the principal by instalments within a reasonable time, that time to be fixed by the Trustees in each case according to the nature of the remunerative employment which has been obtained. If the principal is repaid within three years from the time the loan is made, the interest paid will be refunded.

The Trustees meet to consider applications on the last Tuesday of each month during Term, and on the first day of Michaelmas Term. No application will be considered unless it shall have reached the Trustees at least three clear days before their day of meeting. Communications to be addressed to Dr. L. C. Purser, 35 Trinity College, Dublin.

THE FREDERICK PURSER UNDERGRADUATES' FUND.

IN Hilary Term, 1911, the sum of £3000 was given by John Purser Griffith, M.INST. C.E., and Mrs. Griffith, to institute a fund in memory of the late Professor Frederick Purser, M.A., F.T.C.D., to be called "The Frederick Purser Undergraduates' Fund," with the object of helping some Sophister Students of limited means who have shown promise in their previous Course, so as to enable them to derive the most benefit possible from the teaching of the Sophister years, whether in Arts or in the Professional Schools; and to save them, as far as may be, from being compelled to divert their energies into other activities in order to obtain necessary means of livelihood.

The whole sum available for distribution will be about £50 for the first year and £100 for each succeeding year.

Applications, accompanied by particulars as to the qualifications and prospects of the applicant, should be made to the Trustees of the Fund through the Tutor; and the Tutor of each applicant, and some of the Teachers in Trinity College with whom the applicant has been associated in his or her studies, are to be requested by him or her to send recommendations direct to the Trustees. All communications will be regarded as strictly confidential.

The Trustees meet to consider applications on the last Tuesday in October. No application will be considered unless it shall have reached the Trustees at latest on the Friday before the day on which the Trustees meet.

Communications to be addressed to Dr. L. C. Purser, 35 Trinity College, Dublin.

GOLD MEDALLISTS' WAR FUND.

EARLY in the year 1918 the Right Hon. Sir J. H. M. Campbell, Bart., Vice-Chancellor of the University, acting on the suggestion of the Rev. R. Norwood, formed a Committee for the purpose of inviting former Senior Moderators and the Gold Medallists of the College Societies to devote their medals towards raising a Fund to provide a memorial to the Trinity College men who had fallen in the war, the form of the memorial to be decided by the Committee when the amount of the Fund should be known. The Board of Trinity College agreed to present to each donor a replica of his medal in bronze. In accordance with suggestions made by the donors of the medals, the Committee drew up the following regulations, which have been approved by the Board of Trinity College:—

The Fund shall be invested in the name of the Provost, Fellows, and Scholars of Trinity College, and shall be held by them subject to the following conditions:—

1. The Trustees for the administration of the Fund shall be the Vice-Chancellor of the University, the Lord Chief Justice, the Provost, the Bursar, and the Junior Bursar.

2. They shall devote the interest and capital of the Fund (so far as the latter shall be necessary) towards the education and advancement of such of the children or immediate dependents of members of the University, whether graduates or undergraduates, who have fallen in the war as the Trustees in their sole discretion may select.

3. If in the opinion of the Trustees all proper claims under (2) have been exhausted, then the Trustees shall devote the remainder of the Fund, whether as to capital or interest, to such purposes as may seem to them most nearly in accordance with the original purpose set out in the preceding paragraph.

The amount of the Fund handed to the Board on 25th June, 1921, was £1465 12s.

Applicants should send in their claims to the Bursar.

Professional Schools.

THE Testimoniums in the School of Divinity, and the Degrees, Licenses, or Diplomas in the Schools of Physic, Engineering, and Agriculture can only be obtained by attending prescribed Courses of Lectures during two or more years, and passing certain Examinations.

Students seeking credit for a Term by Lectures must, at the commencement of such Term, duly register with the Clerk of the Books their places of residence for that Term, and during Term notify a change of residence: if this rule be not observed, credit for the Term cannot be allowed.

DIVINITY SCHOOL.

§ I. GENERAL RULES.

IN order to obtain the Divinity Testimonium, Students must pass the Regius Professor's Final Examination, having previously kept the Divinity Terms of two years: during the first year with Archbishop King's Professor of Divinity; during the second with the Regius Professor. Each year consists of three Terms, viz. Michaelmas Term, beginning near the end of October; Hilary Term, beginning near the end of January; Trinity Term, beginning near the end of April. The Lectures of each Term last about eight weeks. It is regular to keep the Terms in the order just stated; but this is not insisted on, and a Student may enter the Divinity School at the beginning of any Term. When a Student has completed his attendance on three Terms' Lectures, and has satisfied the other requirements stated below, he presents himself at an Examination held by Archbishop King's Professor. A Student cannot obtain credit for his first year, and is not permitted to commence attendance with the Regius Professor, until he has passed this Examination.

Students in Divinity are required to attend the Services in the College Chapel during Lecture Term, and they must satisfy the Regius Professor or Archbishop King's Professor that they are habitual communicants of the Church of Ireland. This rule does not apply to a Student who is not a member of the Church of Ireland, or of a Church in communion therewith; but he will not receive the ordinary Testimonium at the end of the Second Year, a special form being substituted for it.

Students in Divinity who are also Students in Arts are not entitled to claim Professional Privileges in any Term in which they substitute for Classics one of the other Courses in Arts.

No Student can present himself for Entrance into the Divinity School who has not kept at least four Terms of the Freshman Catechetical Course, or passed an examination in the whole Senior Freshman Catechetical Course.

The Lecturer in the English Bible delivers a two years' Course of Lectures on Tuesdays and Fridays at 11 o'clock. A Student may attend this Course in whole or in part before he has entered the Divinity School, and it is advisable in most cases to do so as early as possible. It is necessary for every student to obtain credit for attendance on this Course before he can receive the Divinity Testimonium.

A Hostel in connexion with the Divinity School has been established by the General Synod of the Church of Ireland, and recognized by the Board of Trinity College as a registered place of residence for Divinity Students. A prospectus will be furnished on application to the Warden, 25, Mountjoy Square, Dublin.

§ II. ADMISSION TO THE DIVINITY SCHOOL.

Students who have completed their Junior Sophister Year, and who have obtained satisfactory marks in Greek and Latin, may enter the Divinity School; but none but those who have passed the Degree Examination, or who are Senior Sophisters, and qualified to present themselves at the Degree Examination in the following December, are permitted to join the Senior Divinity Class. It is possible for a Student to obtain his Testimonium without paying any fees in addition to those necessary for obtaining his Degree of Bachelor in Arts; because the names of Graduate Divinity Students completing their last Term of Divinity Lectures of the Senior Year in the June Quarter are not struck off the College books until after the Final Examination of the Regius Professor of Divinity; but they are not thereby entitled to the payment of the June quarter of any Exhibition or Prize they may hold.

Students of lower standing than Senior Sophisters who are candidates for Moderatorship, and, in special cases, those who do not intend to pursue the Course in Arts, are allowed to present themselves at the Examination for Entrance into the Divinity School; but it is necessary for them to obtain written permission from Archbishop King's Professor. They are required to make application for such permission a month before the commencement of the Lectures they propose to attend; and they ought to state fully what grounds there are for dealing with them exceptionally, and in particular whether they have received an education in Arts elsewhere.

Any man who has served abroad in the navy or army during the years 1914-1918, shall, if he receive a recommendation from a bishop, be permitted to present himself at the Entrance Examination to the Divinity School at any time after passing the Entrance Examination to the University, and if he pass the Entrance Examination to the Divinity School, he shall be allowed to proceed with his Divinity Course.

Students wishing to enter the Divinity School should give notice of their intention to Archbishop King's Professor not less than seven days before the date of the Entrance Examination.

The examination for Entrance to the Divinity School embraces the following courses:—

- i. The Greek text of the Gospel according to St. Mark, with questions on Greek Grammar.
- ii. Butler, Sermons i., ii., and iii.; with Preface and Dissertation on Virtue.
- iii. Mackenzie's *Manual of Ethics*, Books i. and ii.
- iv. The Senior Freshman Catechetical Course, viz., Genesis, Exodus, i.-xx., incl., 1 & 2 Samuel, 1 & 2 Kings.

All Students must pass in Courses II. and III.

All Students, whether Graduates or Undergraduates, who have not obtained satisfactory marks in Greek at the Final Freshman Examination, must pass in Course I.

Students who have completed four Terms of the Freshman Catechetical Course are excused from Course IV.

§ III. JUNIOR DIVINITY YEAR.

In each Term Archbishop King's Professor of Divinity delivers a Course of Prelections, on Mondays and Thursdays, at eleven o'clock, in the Divinity School; and on the same days his Assistants lecture at noon. One or more of the Assistants may, as need shall require, lecture at one o'clock. The subjects of these Prelections and Lectures are given below. On Tuesdays and Fridays the Lecturer in the English Bible delivers a Course of Lectures at eleven o'clock (see p. 203). Archbishop King's Professor is authorized to require that Students whom he considers deficient in Greek should attend such of the Tutorial Lectures in Greek as may be deemed suitable. A Student cannot obtain credit for having kept a Term, if he shall have absented himself more than once from any Course of Lectures by Archbishop King's Professor, or by his Assistants, or by the Lecturer in the English Bible in such Term, unless in the case of sickness or some other unavoidable impediment, when the omission of a number of Lectures, not exceeding one-fourth of the whole, may be allowed if approved by the Board.

Each Assistant Lecturer holds an examination of his own class at the end of each Term.

It is within the discretion of Archbishop King's Professor to deliver a further course of Prelections on a subject of his own choice on Wednesdays at eleven o'clock, attendance at which is compulsory.

The Professor is empowered to require, at his discretion, from the Students, during each Term, written answers to questions on the subjects of his Prelections.

On the first Lecture day of each Term an Examination is held in a portion of the Greek Testament, at which all Students in the Class, of whatever standing, must present themselves. Students who fail to pass a satisfactory Examination in the appointed Course of Greek on the first day of Term are required to attend Tutorial Lectures in Greek during Term, as provided above.

Examinations in Ecclesiastical History are held on the first days of Lectures in Hilary and Trinity Terms. These two preliminary Examinations must be passed before the Student is allowed to present himself at the Examination with which the Divinity Course for the first year closes.

Six days, not ordinary Lecture Days, are appointed in each Term for English Composition; and credit for *four* attendances at least is necessary for keeping the Term. A premium of £2 is awarded by the Board in each Term, on the recommendation of Archbishop King's Professor, to the Student who shall have sent in the *three* written Essays of highest merit.

The following are the Subjects prescribed for the Lectures and Examinations of each Term:—

Michaelmas Term.—On the first Lecture Day Students are examined in the Greek Text of *Acts*, i.-xii., incl.

Archbishop King's Professor lectures on The Authority, Inspiration, and Criticism of the Bible; and his Assistants lecture on the Greek Text of the Epistle to the Romans.

When a Student has obtained credit, according to the regulations already specified, for attendance at the Lectures of three Terms, he completes his Junior Year by passing a final Examination, conducted by Archbishop King's Professor and his Assistants, according to the following rules:—The principal Examination is held at the end of Trinity Term, for Students who have regularly commenced attendance with Michaelmas Term; but Supplemental Examinations are held at the end of each Term, for the benefit of Students terminating their Course at other times. A Supplemental Examination is also held at the beginning of Michaelmas Term, before the Lectures of the Senior Class begin. In rejecting a Candidate, Archbishop King's Professor determines whether he may present himself again at the Examination at the end of the next following Term, or whether he must be longer kept back.

Students are required to give notice to Archbishop King's Professor of their intention to present themselves at this Examination. This notice must be given one week before the day of Examination.

The Course for the Examination is as follows:—

(Candidates are expected to be acquainted with the renderings of the Revised Version of the New Testament.)

6. The portions of F. J. Foakes Jackson's *History of the Christian Church* appointed for the Hilary and Trinity Term Examinations.
7. The Prelections of Archbishop King's Professor.

Failure to satisfy the Examiners in either 1 or 2 will disqualify a Candidate from obtaining credit for this Examination.

An additional Examination for Prizes (attendance on which is not compulsory) is held in Michaelmas Term. See below, "Prizes."

§ IV. SENIOR DIVINITY YEAR.

The Regius Professor receives into his Class those Students only whose names have been returned to him by Archbishop King's Professor as having satisfied all the requirements of the Junior Year, and who have passed the Degree Examination, or are Senior Sophisters, and qualified to present themselves at the Degree Examination in the following December, or who do not intend to pursue the Course in Arts, but were permitted by Archbishop King's Professor to enter the Junior Class. During the second year, the Students are required to attend the Regius Professor, and one of his Assistants; also the Lecturer in the English Bible, if they have not obtained credit for this course previously (see p. 203). In Michaelmas and Hilary Terms the Professor delivers Prelections on the Dogmatic Theology of the Church in relation to (a) the Church of Rome, (b) the Eastern Church, (c) Non-episcopal Protestantism. The Final Examination is held at the end of Trinity Term, for all Students who have attended and obtained credit for the three preceding Terms of the Senior Divinity year, and have complied with the foregoing regulations. A similar Examination is held at the end of the Michaelmas and Hilary Terms for Supplementalists who have completed their attendance on Divinity Lectures in those Terms respectively. A Supplemental Examination is held also at the beginning of Michaelmas Term, but Students competing at it are liable for the same fees as they pay for the Examination at the end of the Term.

Students are required to give notice to the Regius Professor of their intention to present themselves at the Final Divinity Examination. This notice must be given one week before the day of Examination.

The Examination is conducted by the Regius Professor and his Assistants; and the Professor of Ecclesiastical History takes part in the Examination in his own department. Those Students who have passed the Examination are arranged in three classes, according to their respective answering. BISHOP FORSTER'S DIVINITY PREMIUMS.

In the year 1738, the sum of £200 was given to the College by the Right Rev. Nicholas Forster, D.D., Lord Bishop of Raphoe, sometime Senior Fellow of Trinity College, Dublin, on condition that it should be applied to the purpose of encouraging the study of Theology, in connexion with the Lectures of Archbishop King's Professor of Divinity. When the office of Archbishop King's Professor was placed on a new foundation, in the year 1836, the endowment of Bishop Forster was included in the Prizes then instituted by the Board, for the Junior Divinity Class. The fund, along with the unappropriated balance of interest, produces annually about £17, and this annual interest is distributed in Premiums to the two best answerers in the subjects of the Lectures of Archbishop King's Professor, at the Examination for Archbishop King's Divinity Prizes, if sufficient merit be shown by the Candidates.

CARSON BIBLICAL PRIZE.

In Michaelmas Term, 1891, the Rev. Joseph Carson, D.D., Vice-Provost, gave to the Provost and Senior Fellows of Trinity College the sum of £500, to found a Prize for the purpose of promoting among Divinity Students an accurate knowledge of the text of the English Bible. The Examination for the Prize is under the control and management of Archbishop King's Professor of Divinity, subject to such rules and regulations as the Provost and Senior Fellows may from time to time prescribe.

The Examination is held in the Hilary Term of each year. The Prize is open to all Students in the Junior Divinity Class, and the Examination, which is public, is conducted *vis à voce*. No Student can compete for the Prize a second time.

The fund produces annually about £15.

For the purpose of the Examination, the subject is divided into four parts, as follows:—

- I. Pentateuch, and Historical Books.
- II. Job to Malachi.
- III. Gospels, and Acts of the Apostles.
- IV. Epistles, and Revelation.

In each year, particular books of the above Course will be prescribed for *special* Examination.

TOPLADY MEMORIAL SCRIPTURE PRIZES.

Rev. William Batley, M.A., presented £210 to the Board in Trinity Term, 1906, to form an endowment for a Prize in memory of Rev. Augustus Montague Toplady, Hymn-writer and Theologian.

The Prizes are given for knowledge of Holy Scripture (as distinct from general theological knowledge).

No book except the Bible (or Greek Testament) may be given as a Prize in connexion with this endowment which contains, in the opinion of those appointed to control the selection of the prize books, direct theological teaching.

The Prize, amounting to about £6 5s., is awarded annually to the Candidate next in merit to the Prizeman at the examination for the Carson Biblical Prize.

WEIR PRIZE IN HOLY SCRIPTURE.

In 1921 the College received £100, bequeathed by the Rev. Edward Henry Weir, for the purpose of establishing a Prize in the Divinity School, to be called the Weir Prize.

This Prize is awarded to the Student who shall have shown most merit in the written examination in Holy Scripture at the General Examination of the Junior Class held in Trinity Term.

The Student who shall have obtained the Carson or the Toplady Prize shall not be eligible for the Weir Prize.

It shall be in the power of the Divinity School Council, at the request of the two Divinity Professors, to vary the foregoing regulations governing the competition of the Prize as circumstances may require.

The annual value of the Prize is about £5.

DOWNES DIVINITY PREMIUMS.

In the year 1797, these Premiums were established out of a fund bequeathed to the College for the purpose, by the Rev. Dr. Downes, of Waterford. The fund produces annually about £39. The regulations concerning these Prizes (which are open to all Students in Divinity during the two terms antecedent to that in which the examinations are held) are as follows:—

1. *Written Composition*.—The Examiners are the Regius Professor of Divinity, Archbishop King's Professor of Divinity, and the Professor of Oratory. The subject is announced in the last week of Hilary Term by Archbishop King's Professor. On an appointed day in Trinity Term the Candidates deliver discourses on the proposed subject without hesitation, no discourse to exceed one quarter of an hour in delivery. A Premium of about £12 is adjudged to the best, and one of about £8 to the

next best, or such inferior Premiums as they shall appear to merit, regard being had as well to the manner of pronouncing such discourses as to the matter of them. No Candidate can compete oftener than three times.

2. *Oratory*.—Prizes of about £6 and £4 are placed at the disposal of the Professor of Pastoral Theology each Trinity Term, to be awarded at his discretion to those Students who have profited most by his instructions in preaching and in the delivery of sermons. No Candidate can obtain either Prize a second time.

3. *Reading the Liturgy*.—Prizes of about £5 and £2 are placed at the disposal of the Wallace Lecturer each Trinity Term to be awarded at his discretion to those Students who have profited most by his instructions. No Candidate can obtain either Prize a second time.

The following is an extract from the will of Dr. Downes, respecting the disposal of unappropriated Premiums:—

“And whereas it may from time to time so happen that Candidates meriting such Premiums may not appear, in such case, the savings in each year shall go to the augmentation of the fund, and be laid out, from time to time, in the purchase of Government securities, the interest thereof to be added to the fund for the increase of said Premiums in future.”

Dr. Downes also founded certain Exhibitions, to be held by Students in Divinity. The conditions on which these Exhibitions are awarded will be found under the title “Downes Exhibitions.”

CHURCH FORMULARIES PRIZE.

O'REGAN MEMORIAL PRIZE.

An Annual Prize of £5 is awarded to the best answerer at the Final Divinity Examination.

It was founded in 1918 by the son of the Ven. John O'Regan, Archdeacon of Kildare (Sch. 1841), to perpetuate the memory of his father, who obtained full marks from each of the nine examiners at the Final Divinity Examination in 1846.

A memoir of Archdeacon O'Regan, by his son, is also presented to the winner.

REGULATIONS CONCERNING LECTURES, HOSPITALS, &c.

ATTENDANCE ON LECTURES.

Students are expected to attend all the Lectures or Demonstrations delivered in each Course for which they enter, whether in the Winter or the Summer Session; but in order to provide for unavoidable absence, such as illness or attendance at Examinations, they are allowed credit for a Course if they have been present at three-fourths of the Lectures or Demonstrations actually delivered. If this proportion involve a fraction, the next highest whole number is reckoned as the minimum. If more than one-

fourth have been missed, application must be made through the Committee of the School of Physic to the Board of Trinity College, by whom each case is decided on its merits, but the applicant must produce satisfactory reasons for omission of *all* the Lectures missed, not of the excess above one-fourth only. No Student will be allowed credit for a Course who has not been found diligent in attendance, when not prevented by illness or other cause considered sufficient by the Board.

CLASS EXAMINATIONS.

Students will be required to show a reasonable knowledge, as ascertained by Examination during the Session, of the subject of a Course of Lectures before a certificate of satisfactory attendance is issued by the Professor in charge, and the return to the Senior Lecturer is to include a statement that this condition has been fulfilled.

Students will be required to attend on at least forty-five occasions in this three months' Course in order to obtain credit for it.

Students attending Hospital are required, at the end of each month, to lodge at the Registrar's Office, in the Medical School, a card which has been signed daily during the month by some member of the Hospital Staff. These cards may be obtained at the Office at the School of Physic.

The first Hospital attendance card of the Academic Year must be signed by the Secretary to the Medical Board of the Hospital attended by the Student.

No Student will be supplied with a Hospital attendance card until that previously supplied, completed as required, has been handed in.

The following will not be accepted in lieu of attendance at Clinical instruction at General Hospitals:—

- (a) Attendance at Special Hospitals.
- (b) Attendance at courses of instruction in Vaccination.
- (c) The statement that a student is reading for one of the Medical or Arts Examinations.

Hospital attendance cannot be commenced until the Student has obtained credit for six months' dissections, and completed the Preliminary Scientific Examination.

Attendance at a general Hospital during the months of July, August, and September, cannot be counted unless the Student is resident at the Hospital.

Students who shall have diligently attended the practice of a

recognized London or Edinburgh Hospital for one year, of a recognized County Infirmary, or of a recognized Dominion Hospital for two years previous to the commencement of their Metropolitan Medical Studies, may be allowed, on special application to the Board of Trinity College, to count the period so spent as equivalent to one year spent in a recognized Metropolitan Hospital.

REGULATIONS FOR MEDICAL AND DENTAL STUDENTS.

1. In order to join the Medical or Dental School, a Student must have either

(a) passed a Junior Freshman Term Examination, exclusive of Trigonometry,

or

(b) passed either the Special Preliminary Examination held in March or that held in the first days of October. The standard subjects are those of the Hilary Junior Freshman Examination,*

or

(c) obtained at the Examination for Junior Exhibitions marks showing sufficient merit in the subjects of (a) or (b).

Note.—Rising Junior Freshmen desiring to begin their Medical or Dental Curriculum have the privilege of presenting themselves at either the Michaelmas Junior Freshman Examination (exclusive of Trigonometry) or the Supplemental Hilary Examination at the end of Trinity Term, without paying the May fee of the Junior Freshman Year. But they obtain no academic credit for either examination beyond the right of entering the Medical or Dental School.

2. All Medical and Dental Students of undergraduate standing, who claim professional privileges in Arts, must attend at least one course of Arts Lectures in the Trinity Term of each year. The subjects of these lectures are as follows:—

Junior Freshman Year.

Mechanics (including Elementary Trigonometry) and English Composition.

Senior Freshman Year.

Junior and Senior Sophister Year.

The two Arts Courses attended in the Trinity Terms of the Sophister Years may be any two, with English Composition, of the following

* At the Preliminary Examination in October Students may present themselves in the subjects of the Junior Freshmen Michaelmas Term Examination, omitting Trigonometry, should they so desire.

subjects:—(1) Astronomy, (2) Languages:—French and German, (3) Psychology, (4) Ethics, (5) Political and Economic Science.

Note 1.—Students whose English Composition is unsatisfactory may be required to attend special lectures in that subject.

Note 2.—Students who enter the Medical or Dental School at the commencement of their Senior Freshman Year, and have obtained credit for only one term as Junior Freshmen, must, in the Trinity Term of the Senior Freshman Year, attend the Lectures in Logic (Formal) and English Composition, and in either the Hilary or the Trinity Term attend the Lectures in Mechanics.

Note 3.—In order to obtain credit for the Arts Term in the Junior Sophister Year, the student must pass an examination at the end of the Term in the subject in which he has attended Lectures.

Note 4.—A student, having passed the Final Freshman Examination, may obtain credit for the Arts Terms of his Sophister Years by attendance at the Sophister Moderatorship Lectures in any subject, provided that he afterwards obtains a Moderatorship in that subject, and has already obtained the B.A. Degree of another University.

3. Students who have entered the Medical or Dental School not later than the commencement of their Senior Freshman Year, and have obtained credit for such terms of Arts Lectures as they are required under § 2 to attend in the Freshman Years, will obtain credit for the Final Freshman Examination by passing—

(a) The Preliminary Scientific Examination of the Medical School, or the Preliminary Scientific Dental Examination and the Examination in Dental Anatomy.

(b) An Examination in Mechanics, Logics, English Composition, and one of the following languages:—Greek, Latin, French, German.

The Examination in Mechanics may be taken concurrently with the rest of the Arts part of the Final Freshman Examination, or as in § 4. If taken as in § 4, this examination must be passed before the Final Freshman Examination.

A student need not have passed (a) in whole or in part before presenting himself for (b), but he must have passed both before the Trinity Lectures of his Junior Sophister year.

4. An Examination will be held in the Mechanics of the Final Freshman Course (including Elementary Trigonometry), at the date of each of the Preliminary Scientific Examinations.

10. If at any time a Student is reported by the Medical School Committee to the Senior Lecturer, as having ceased to pursue his studies with diligence, he shall thereupon lose the privileges accorded to Medical or Dental Students, until such time as the Medical School Committee report that he has resumed diligent attendance.

If such unfavourable report be made at the end of the Summer Session, the Student will obtain no academic credit for the Arts Lectures he may have attended during the Trinity Term of that year.

11. Medical and Dental Students who do not claim professional privileges may keep their course in Arts by passing the usual Term Examinations and Degree Examination in full. A bronze Medal is awarded to the winner, and a Money Prize to the second best candidate, at the Surgical Travelling Prize Examination.

FITZ-PATRICK SCHOLARSHIP.

This Scholarship was founded in November, 1901, by Mrs. Fitz-Patrick, in memory of her husband, Thomas Fitz-Patrick, M.D. (Dubl.). It consists of the interest on £1000. It will be awarded annually to the Student who obtains the highest aggregate marks at Part II. of the Intermediate, and Parts I. and II. of the Final Examinations, provided that the Student has completed the Medical Course in the prescribed period of five years.

MEDICAL SCHOLARSHIPS.

Two Medical Scholarships, founded in 1860, are offered annually, tenable for two years, with a Salary of £20 per annum, one being for Anatomy and Physiology, the other for Chemistry, Physics, Botany, and Zoology.

The following Regulations have been adopted:—

(1). No Students can compete for the Scholarship in Anatomy and Physiology after the completion of their third year; nor for that in Chemistry, Physics, Botany, and Zoology, after the completion of their second year.

Students who enter the Medical School in a Summer Session will be allowed to compete for Scholarship in Anatomy and Physiology at the end of their Fourth Summer Session.

(2). No Student can hold both Scholarships together.

(3). Sixty per cent. of the marks at the Examination for the Scholarship in Chemistry, Physics, Botany, and Zoology, are allowed to the two former, and the remaining forty per cent. to the two latter subjects.

The best answerers at the Examination are elected to these Scholarships, provided that they have their names on the College Books, have kept one *Annus Medicus* in the School of Physic, have obtained credit for the prescribed Arts exercises, and that their answering is of a high order.

Graduates in Arts otherwise qualified may be Candidates for Medical Scholarships without having their names on the College Books.

Candidates for the Scholarship in Chemistry, Physics, Botany, and Zoology, are recommended to attend the Demonstrations of the Professors of Botany and Zoology during Michaelmas, Hilary, and Trinity Terms.

Candidates for Medical Scholarship will be allowed to substitute attendance on the Lectures and Demonstrations in Zoology and Comparative Anatomy given in Michaelmas, Hilary, and Trinity Terms for attendance on the Lectures in Zoology given during the Summer Session.

DR. HENRY HUTCHINSON STEWART MEDICAL SCHOLARSHIPS.

Dr. Henry Hutchinson Stewart Scholarships in (a) Anatomy and Institutes of Medicine, and in (b) Chemistry, Physics, Botany, and Zoology, of the value of £10 per annum, tenable for three years, are awarded from time to time.

The Regulations for these Scholarships are:—

Students may be of any standing in Arts.

No Student is allowed to compete a second time for a Scholarship in the same subjects.

A Scholarship will be awarded to:—

(b) The Candidate who obtains the highest total of marks at the Examination in Physics in March, and the Examinations in Botany and Zoology, and Chemistry, in June, provided that, in the opinion of the Examiners, he obtains High Marks.

No Student may compete for (b) who has been more than two Summer and one Winter Session in the School, or for (a) who has been more than three Summer and two Winter Sessions in the School. Equal marks will be awarded to Anatomy and Physiology in (a), and to each of the four subjects, Botany, Zoology, Chemistry, and Physics in (b).

JOHN MALLET PURSER MEDAL.

In 1891 a bronze medal, to be called "the John Mallet Purser Medal," was founded by his past pupils in honour of Dr. John Mallet Purser, to mark the twenty-fifth year of his tenure of the King's Professorship of the Institutes of Medicine.

The medal is awarded annually to the Student who, being successful in passing the Intermediate Medical Examination,

Part I, held in June, obtains the highest marks in Physiology and Histology.

DANIEL JOHN CUNNINGHAM MEMORIAL MEDAL AND PRIZE.

In 1909 a Prize and Bronze Medal were founded by his pupils and friends in memory of Dr. Daniel John Cunningham, sometime University Professor of Anatomy.

The Medal and Prize are awarded annually to the Student who, being successful in passing the Intermediate Medical Examination, Part I, held in June, obtains the highest marks in Anatomy.

No Student is eligible to compete who, at the time of the examination, has been longer than three years in the Medical School.

BEGLEY STUDENTSHIPS.

In Trinity Term, 1905, bequests from William Chapman Begley, B.A., M.B. of £5200, 2½ per Cent. Consols, and from his wife, Jane Begley, of £1004 14s. 6d., for the purpose of endowing four Medical Studentships, were received by the Board.

The Studentships are open to all Undergraduates who have passed the Final Senior Freshman Examination, and who have entered or intend immediately to enter the Medical School. Where the qualification and merits of the Candidates for the Studentships are, in the opinion of the Board, otherwise equal, preference is given according to the seniority of their standing in Arts at the time of their entering the School. Every Student during his tenure shall pursue his studies in the School to the satisfaction of the Board; if he fails to do so, or is guilty of any serious misconduct or breach of College discipline, he shall cease to be entitled to the Studentship, unless for special reasons the Board shall determine otherwise.

One Studentship, value about £37 per annum, tenable for four years, or until the holder becomes medically qualified, is awarded annually about the last Saturday in November. Candidates must apply through their Tutors to the Board, and submit a list of their distinctions in Arts, and also of their distinctions in Medicine, if they have been for some time students in the School.

Introductory.

THE School of Engineering in the University of Dublin was established in the year 1842 for the purpose of affording to such Students as intend becoming Civil Engineers systematic instruction in those branches of knowledge which are most useful to the Engineer in the practice of his profession.

While keeping this object in view, it has been deemed advisable to require the Student, during his Course in the School, to be a member of Trinity College, and subject to its regular discipline, giving him at the same time the opportunity of obtaining the advantages of a general University Education.

Membership of Trinity College.

In order to become a member of the College, it is necessary to pass the Entrance Examination, and pay the Entrance Fee of £15.

The Course for this Examination is given in the Calendar, p. 31, or in the Shorter Programme, p. 2. The dates at which it is held are given in the Calendar, pp. 1* to 5*, or in the Shorter Programme, p. 2.

Admission to the School of Engineering.

Having thus become a member of the College, the Student is eligible for admission to the School of Engineering, which is obtained by his passing a further Examination (in the subjects enumerated below), held annually at the end of Trinity and also at the beginning of Michaelmas Term, at which period of the year only can a Student join the classes. Students intending to enter must be at the Engineering School at 10 o'clock on the day fixed in the Almanac.

Subjects for Entrance Examination to Engineering School.

Arithmetic.

Algebra (to the end of Quadratic Equations).

Geometry (Euclid, first six Books).

Trigonometry (to the end of Solution of Plane Triangles).

Elementary Mechanics.

Upon passing this Examination the Candidate is admitted to the School, and begins his studies in it.

Duration and Subjects of Professional Course.

The Professional Course continues for three or four years, as explained below, from the time of entering the School, during

which instruction is given partly by Lectures, and partly in Laboratories and in the Field, being arranged thus:—

FIRST YEAR (JUNIOR CLASS).

Mathematics.
Mechanics.
Experimental Physics.
Chemistry.
Elementary Geology and Mineralogy.
Elementary Surveying.
Drawing and Practical Geometry.

SECOND YEAR (MIDDLE CLASS).

Practical Mechanics.
Theory of the Steam Engine.
Chemistry—Analyses of Ores, Minerals, &c.
Elementary Geology.
Surveying and Field Work.
Design of Structures and Materials of Construction.
Drawing, Designing, and Office Work.
Electrical Engineering.

THIRD YEAR (SENIOR CLASS).

Mineralogy, Petrology, Field Geology, and Mining.
Design of Structures.
Foundations, Roads and Railways, Harbours and Docks.
Hydraulics, Waterworks, and Sewerage.
Practical Design and Field Work.
Electrical Engineering and Mechanical Engineering.

FOURTH YEAR (OPTIONAL).

Civil Engineering.
Electrical and Mechanical Engineering.

The optional fourth year Course has been instituted with a view to covering more advanced work in Civil, Electrical, and Mechanical Engineering. Particulars of the Course may be obtained on application.

Students wishing to make a special study of Electrical Engineering are recommended to do so in the fourth year. The Electrical Engineering Course includes a series of lectures on the Development of Hydro-Electric Power Stations and on the Design and Construction of Transmission Lines. These lectures run in conjunction with a Civil Engineering Course on Hydro-Electric Engineering.

Students taking the ordinary three years' Course are allowed to specialise during part of the third year, and to present themselves accordingly in special Papers at the Final B.A.I. Examination: those who may wish to devote themselves to the ordinary

Civil Engineering work being required to study only a certain part of the Electrical Engineering work, and to take at the B.A. I. Examination a certain part of the Electrical Engineering Examination in addition to the full Civil Engineering Examination; and those who may wish to devote themselves to Electrical Engineering being allowed to substitute the Electrical Engineering Lectures and Demonstrations of the Lecturer in the Practice of Electrical Engineering, for certain parts of the Civil Engineering work, as arranged by the Professor of Civil Engineering, and to be allowed to substitute the Electrical Engineering Examination for two of the Papers set by the Professor of Civil Engineering at the B.A.I. Examination: the Drawing of Students thus specialising will be arranged so as to be suited to their Electrical Engineering work as far as possible.

Examinations.

At the end of the Trinity Term, in each year, the Junior and Middle Classes are examined as to their proficiency in the subjects they have been lectured in previously; and no Student can rise from a lower to a higher Class except he shall have *first* obtained credit for the necessary attendance at the Lectures delivered to his Class, and at Laboratory and Field Work and in the Drawing School, during each of the three Terms of the Academic Year then closing, and also have passed the Examination at the end in the Trinity Term above mentioned or a Supplemental Examination at the beginning of the following Michaelmas Term.

A Student who has failed to pass one of these Examinations may, on payment of half the Fee for the corresponding year, attend over again the Lectures in the subjects in which he was deficient.

A part of the regular Final (or Degree) Examination of the Senior Class is held at the end of Trinity Term, and the remainder in Michaelmas Term. There is also a corresponding Supplemental Examination at the beginning of the next Trinity Term.

Students are required to give notice to the Registrar of the School of their intention to present themselves at any of these Examinations at least a week before the commencement of the Examination, and at the same time to send in their Drawings, &c., to the Professor of Engineering or his Assistant.

Attendances at Lectures, &c.

In order to obtain credit for attendance at Lectures, a Student must have attended at least three-fourths of the Lectures delivered to his Class by each Lecturer during each of the three Terms in the Academic Year.

To obtain credit for *Office Work, &c.*, the following attendance in the Drawing School is necessary:—

Middle Class, at least 14 hours each week during Term.

Senior Class, ,, 16 ,, ,, ,, ,,

That is, the work done by each Student in the Drawing School from week to week must be equivalent to these numbers of hours work in the judgment of the Professor of Engineering.

To obtain credit for *Field Work*, the Student must attend during the entire time on at least three out of every four occasions when the Professor of Engineering or his Assistant takes the Class out for practical instruction in the Field.

And he must further make out and plot as many Surveys and Sections as the Professor of Engineering may consider it desirable to require of him, in order to ensure his proficiency in these branches.

The time thus occupied will be credited to the Student as if spent in the Drawing School.

The hours spent at Arts Lectures or Laboratory Work count as half that number of hours' attendance in the Drawing School. Notice must, however, be given to the Assistant to the Professor of Engineering during the first week of such attendance.

Eighteen hours' attendance is sufficient for the fortnight within which a Student has to pass an Arts Examination, and a similar notice to that mentioned in the preceding paragraph must be given in order to obtain this remission.

Certificate in Engineering.

Upon concluding the Senior Year of his Course, and obtaining credit for the required attendance at Lectures, and at Field and Office Work, the Student, after passing the final Examination, will be entitled to receive the Certificate in Engineering granted by the Professors of the Engineering School.

License in Engineering.

He keeps the usual Freshman terms in Arts, and, if desirous of proceeding to the Degree in Agriculture, he also keeps the Sophister terms in Arts. During the Sophister years he receives "professional privileges" in Arts.

At the conclusion of the first two years the student is examined in the Science Courses pursued by him. This examination is conducted in Trinity College and by the Examiners of the University.

During the second two years the student studies Agriculture and Agricultural Science in the Royal College of Science and at the Farm at Glasnevin. During one of these years the student carries out research in Agricultural Science under the direction of one of the Professors or Lecturers of the Royal College of Science. Students who aim at obtaining a Diploma in the University of Dublin, and do not seek the Degree (Agr. B.) need attend no Arts lectures in Trinity College after passing the Final Freshman Examination. They would, after their first two years, take a less specialized course than that required for the Associateship of the Royal College of Science.

The final examination in Agriculture and Agricultural Science is conducted in the Royal College of Science, and mainly by the Professors of that College; but the University of Dublin is represented at that examination by an examiner appointed by Trinity College, and extern to the Royal College of Science.

The following particulars apply to the Courses pursued during the first two years in Trinity College. For the Courses pursued during the second two years the student must make application to the Royal College of Science for Ireland.

Historical Summary.

In the year 1601, the Spanish troops were defeated by the English at Kinsale, and Her Majesty's army, to commemorate their victory, subscribed the sum of £1800, from the arrears of their pay, to establish in the University of Dublin a public Library.^a Dr. Challoner

^a Dr. Mahaffy, in his "Epoch in Irish History," gives a different account of this matter.

and Mr. James Ussher, afterwards the celebrated Archbishop, were selected by the benefactors as the trustees of their donation, and commissioned to purchase such books as they should judge most necessary and useful for the advancement of learning. "And it is somewhat remarkable" (says Dr. Parr) "that at this time [1603], when the said persons were at London about the laying out this money in books, they then met Sir Thomas Bodley there, buying books for his new erected Library at Oxford, so that there began a correspondence between them upon this occasion, helping each other to procure the choicest and best books on several subjects that could be gotten; so that the famous Bodleian Library at Oxford, and that of Dublin, began together."

The private collection of Ussher himself, consisting of 10,000 volumes, with many MSS. of great value, was the first donation of moment which the Library received; and for this also literature is indebted to the officers and soldiers of the English army. In 1640, Ussher left Ireland, and the insurgents soon after destroyed all his personal property, with the exception of his books, which were fortunately secured, and soon after conveyed to Chester, and from thence to London.^a In 1642, Ussher was nominated one of the Westminster Assembly of Divines, but refused to attend, and even preached against their proceedings at Oxford.^b For this crime his library, or a portion of it, which he had left behind him at Chelsea College, was seized and confiscated by order of the House of Commons, as the property of a delinquent; but John Selden, his particular friend, by the interference of Dr. Featly, obtained permission to purchase them as if for his own use, though really for the purpose of restoring them to their original owner. On the Archbishop's death in 1655, although he had destined his books for Trinity College, the misfortunes of the times compelled him to leave them to his only daughter, Lady Tyrrell, then mother of a numerous family,^c and in narrow circumstances. Proposals were soon after made to her for the purchase of the library, by the King of Denmark and Cardinal Mazarin; but Cromwell issued an order prohibiting the Primate's family from selling it without his consent, and he refused to permit it to be brought out of the kingdom. Soon after, the officers and soldiers of the army then in Ireland, wishing to emulate those of Elizabeth, purchased the whole Library for the sum of £2200, together with all the Archbishop's manuscripts, and a choice though not numerous collection of ancient coins, with the design of presenting them to the College. But when the books were brought over to Ireland, Cromwell refused to permit the intentions of the donors to be carried into effect, alleging that it was his intention to found a new College or Hall, in which the collection might more conveniently be preserved separate from all other books. The library, therefore, was deposited in the Castle of Dublin, and being there kept with great negligence, an immense number of valuable

^a Parr, p. 47.^b *Ibid.*, p. 50.^c *Ibid.*, p. 102

books and MSS. were stolen or destroyed. At length, on the Restoration, His Majesty King Charles II. ordered that what remained of the Primate's library should be given to the University, according to the generous purpose of the original purchasers.

In 1674, Sir Jerome Alexander, one of the Justices of the Common Pleas in Ireland, left his collection of law books to the College, with £100 for fitting up a place for them; as also the valuable MSS. contained in Class G in the Manuscript Room.

In the year 1726, the Library received an addition of upwards of 4000 volumes, from the books bequeathed to it by Dr. Wm. Palliser, Archbishop of Cashel, who had been a Fellow of the College, and also during his lifetime a munificent benefactor to it. The following extract from his will contains the conditions of this valuable bequest:—

“Item, I devise unto the Provost, Fellows, and Scholars of the College of the Holy Trinity near Dublin, and their successors, such of my books of all kinds as they now have not, or at the time of my death shall not be furnished with, to be sorted, and set out by the Rev. Doctor Claudius Gilbert, and my said son, William Palliser. Item, I devise unto the said Provost, Fellows, and Scholars, and successors, such editions of my books as they now have not, or at the time of my death shall not be furnished with, to be in like manner sorted and set out by the said Doctor Gilbert and my said son, William Palliser. Provided always, and my will is, that the editions and books hereby devised shall go by the name, and be always called *Bibliotheca Palliseriana*, and that the same shall be, and continue placed and kept next to the library devised to the Provost, Fellows, and Scholars, by the late Lord Primate Ussher, now called *Bibliotheca Usseriana*. And my farther will and meaning is, that if the said Provost, Fellows, and Scholars, or their successors, shall at any time fail to call the editions and books hereby devised by the name of *Bibliotheca Palliseriana*, or shall at any time fail to keep them next to the said library, devised by the late Lord Primate Ussher, the disposition hereby made to the said Provost, Fellows, and Scholars, and their successors, shall, upon such failures become void and of no effect.”

Another most valuable addition to the Library was the collection of Dr. Claudius Gilbert, Vice-Provost and Regius Professor of Divinity, consisting of nearly 13,000 volumes. In the year 1735 he retired on the living of Ardstraw, and soon after presented his Library to the College, having spent his whole life in collecting books for that purpose.*

In 1741, Dr. John Stearne, Bishop of Clogher, and Vice-Chancellor of the University, bequeathed to the Library the valuable

* The following passage appears in the “Annual Register” for 1759:—

“Doctor Claudius Gilbert, formerly Vice-Provost of Trinity College, Dublin. This excellent person besides other valuable donations, bequeathed to that College a collection of books consisting of 13,000 volumes, chosen with great discernment and care. His bust was this day (Feb. 1, 1758) placed at the head of the books. It is the workmanship of Verpoil, and for expression and elegance does great credit to the taste and skill of the Statuary.

collection of MSS. preserved in Class F of the Manuscript Room, together with all such books from his private collection as were not already in the Library.

Besides these, the Manuscript Library is indebted to Dr. Miles Sumner, admitted a Fellow during the Commonwealth, and afterwards for many years Donegal Lecturer in Mathematics in the University; to Sir William Gore; Sir Henry Prescott; Dr. Henry Jones, Bishop of Meath and Vice-Chancellor of the University; Dr. John Parker, Archbishop of Dublin; William Barry, M.A.; John Lyon, M.A., and Librarian; Thomas Hey of Chester ("Cestensis Signifer"), A.D. 1646; Gordian Strowbridge; Murtogh Dowling, Esq., A.D. 1693; Charles Willoughby, M.D.; Cornelius Higden; and Edward Worth, M.D. Besides these, Peter Carewe, President of Munster in the reign of Elizabeth, gave to the Library a valuable collection of Irish Manuscripts.

In 1774, the sum of £100 was bequeathed to the Library by Thomas Holles, Esq., to be applied to the purchase of books written by English, Irish, or Scotchmen, upon Politics, Natural and Civil History, and Mathematics.

A very considerable addition was made to the Library in the year 1802, when the Fagel Library, consisting of upwards of 20,000 volumes, was purchased by the Board of Erasmus Smith for £10,000, and presented to the University. This valuable collection was made by M. Greffier Fagel, Pensionary of Holland, and in 1794, when the French invaded that country, was removed to England for sale, and there purchased for the College.

In the year 1805, a small but choice collection of books, including many *Editiones Principes* of the Classics, was bequeathed to the Library by Henry George Quin, Esq., under the conditions expressed in the following extract from his will, dated September 23, 1794:—

"I give and bequeath my large mahogany book-case, together with such of my books and manuscripts as are specified in a catalogue bound in red morocco leather, written in my own hand, and marked with the letters L.T.C.D., which book-case, books, and manuscripts, together with the catalogue itself, and the hammer which was presented to me at Amsterdam by Signor Crevanna, I give and bequeath for ever to the Provost and Fellows of Trinity College, Dublin, in order that they may be placed in the Library of the College. And as most of the books hereby bequeathed are of considerable value, and on that account the more liable to be stolen if placed in a situation easy of access, it is my will and desire that they be deposited, not in the great public room of the Library, but in that part of it called the Manuscript Room. And it is my will that the book-case hereby bequeathed which is to contain them, may be placed exactly in the centre of the side of the room, opposite to the door of entrance, and I desire that the words *Bibliotheca Quiniana*, in capital letters, two inches in height, and gilt on a dark-coloured ground, be put on the top of the two central doors of the aforesaid book-case, one word on each

door. And it is my will and desire, that the said book-case be generally kept locked, and that it be never opened, or the books handled by any person, but in presence of the librarian or his assistant, one of whom shall always keep the key thereof. And it is my desire that none of the books hereby bequeathed shall ever be taken out of the Manuscript Room. I desire likewise that none of them shall ever be rebound, or any new or additional covering or lettering of any kind be put upon them, but that they shall always remain precisely in the same state wherein they shall be found at the time of my decease. And I desire that a copy of the part of my will which relates to the disposal of my books be sent by my executors to the Provost and Senior Fellows, within one month after my decease, in order that my bequest may, in every particular, be fully carried into effect."

The Library is continually increased by copies of every book published in England. This privilege it enjoys by Act of Parliament,^a 54 Geo. III. cap. 156.

In addition to gifts from Colonial and Foreign Governments, Universities, Academies, Institutions, and Societies during the year—

Gifts of books, &c., were received from :—

LENDING LIBRARY.

As the Royal Statutes by which the General Library is regulated forbid the removal of any book from its precincts, except for binding or other special cause, the Provost and Senior Fellows, many years since, established a Lending Library, consisting of books on the general subjects of collegiate study, which it was desirable that Students should be able to read in their own chambers, but which might prove too costly for ordinary purchase. The Lending Library receives constant augmentations of books, either from special donations, or from the proceeds of a grant made from time to time, out of the College funds.

The Lending Library contains an extensive collection of mathematical, classical, and theological books, as well as works connected with civil engineering. Medical Students are privileged to borrow books from the Medical Library of the College of Physicians.

The Lending Library is usually open for the lending and receipt of books, on three days in each week from 1.30 to 2.30 o'clock, P.M., during Term. A large room in the Museum Building is fitted up to receive the books of the Lending Library. Students can be furnished with Catalogues on application to the Clerk in charge of the Library.

THE LECKY LIBRARY.

IN 1912, shortly before her death, Mrs. Lecky presented to Trinity College the Library of her husband, William Edward Hartpole Lecky, a collection of about 6000 volumes.

The Library is placed in the Council Room, and books may be borrowed from it by Fellows, Professors, Lecturers, Assistants to Professors, and by Students specially recommended by the Professor or Lecturer whose class they are attending.

Application is to be made to the Clerk of the Lending Library.

Astronomical Observatory of Trinity College.

THE Observatory is at Dunsink, five miles from the College. It is the official residence of the Royal Astronomer for Ireland. The principal instruments are a Meridian Circle by Pistor and Martins; a Chronograph by Grubb; a 12-inch refractor by Canchoix, presented by Sir James South, and a 15-inch silvered glass reflector by With, presented by Isaac Roberts, Esq., both of which are mounted equatorially. The Observatory is open from 7.30 to 9 P.M. on the first Saturday of the months September to April inclusive. The Observatory is open to Students on each Thursday during Term.

Time-Service.—The clock in the Museum Building and two clocks in the office of the Dublin Port and Docks Board are under the direct electrical control of the Mean-time Clock at the Observatory, and by a relay the control is extended to other clocks in Dublin. For the convenience of mariners a time-ball is dropped on week-days on the roof of the Port and Docks Office at one o'clock Greenwich mean time, by electrical arrangement.

Publications.—"Astronomical Observations and Researches made at Dunsink, the Observatory of Trinity College, Dublin" (printed by order of the Board of Trinity College):—

Normal Climatological Station.

IN January, 1904, the Provost and Senior Fellows established a Normal Climatological Station within the precincts of Trinity College. The station occupies an open space in the Fellows' Garden, and is fully equipped.

A "Normal Climatological Station"—or "Second Order Station" of the International Classification—is one at which readings are taken each day at 9 A.M. and at 9 P.M., local time, and which is provided with the following instruments properly verified

and exposed:—barometer, dry-bulb, wet-bulb, maximum and minimum thermometers, and rain-gauge. In addition to these instruments, the equipment of the Trinity College Meteorological Observatory includes a Campbell-Stokes sunshine-recorder and two-earth thermometers, of which the bulbs are placed underground at a depth of one foot and of four feet respectively.

The Meteorological Observatory is under the superintendence of Erasmus Smith's Professor of Natural and Experimental Philosophy, W. E. Thrift, M.A., F.T.C.D. Practical demonstrations of the use of the instruments are given by the Professor or his Assistants to Students of the School of Physic in Ireland, Engineering, and other Students from time to time during Term.

The observations are taken by an Undergraduate or Graduate in Arts, appointed each year by the Provost and Senior Fellows, on the nomination of Erasmus Smith's Professor of Natural and Experimental Philosophy.

Buildings of Trinity College.

Of the buildings of the original College of Queen Elizabeth no portion now remains.

A grant was made by the Corporation of Dublin, July 20, 1592, in which the bounds of Trinity College are recited as follows (Thomas Smith, Mayor, George Kennedy and John Myles, Sheriffs)

“Sicut se extendunt in longitudinem a campo vocato Anglice Hoggin Greene ex parte occidentali usque ad terram nuper Monasterii Beatæ Mariæ Virginis juxta Dublin nunc in tennure Johannis Dongan generosi; ex parte orientali et sicut jacet in latitudine a venella quæ ducit ad fontem St. Patricii ex parte australi usque ad terram prædictam nuper Monasterii Beatæ Mariæ Virginis et flumen Anliffey ex boreali parte.”

In 1695-6 there were 144 hearths in Trinity College.

LIBRARY.

The foundation of the Library was laid May 12, 1712, the Provost and Fellows having obtained a grant of £5000 from Queen Anne, on the address of the Irish House of Commons, for the purpose of building a Library. The building itself was finished in 1724, but some years elapsed before it was prepared for the reception of books. The total cost was about £17,000, of which £15,000 in all was provided by the Parliament. The architect was Thomas Burgh.

The Long Room is 209 feet in length and 40 feet in breadth. 8 feet 4 inches being occupied on either side by the Stalls.

In 1743 Dr. Gilbert bequeathed a sum of £500 to purchase busts for the Long Room. Among the busts first placed in the Library, which were executed by Roubillac, is one of Dean Swift, which

was presented to the College, in 1745, by the Senior Sophister Class. The busts of Lord Plunket and M^r Cullagh are by Christopher Moore; that of Sir William Hamilton by J. H. Foley; that of Provost Humphrey Lloyd is by A. Bruce Joy.

In 1890 it was decided to enlarge the Library by enclosing the colonnades.

PRINTING HOUSE.

The Printing House was built between 1726 and 1734, by Dr. Stearne, Bishop of Clogher and Vice-Chancellor of the University.

DINING HALL.

The Dining Hall was erected between 1740 and 1745. It contains a number of portraits, chiefly of Chancellors of the University.

The portrait of Frederick Prince of Wales, over the entrance, was painted by Hudson, master of Sir Joshua Reynolds, and was presented to Trinity College by George III. Its frame was carved by G. Gibbons, and was originally in Windsor Castle.

FRONT OF TRINITY COLLEGE.

The West Front of Trinity College was erected in 1759, the architect being Sir William Chambers, who constructed Somerset House in London. The College received £40,000 from George II. upon the address of the Irish House of Commons, for the purpose of building this Front and the adjoining Parliament Square.

The statues of Goldsmith and of Burke, standing in front of the College, executed by J. H. Foley, were erected by public subscription in 1864 and 1868.

PROVOST'S HOUSE.

The Provost's House was erected in 1760, at a cost of £13,000, by Provost Andrews. It is a fac-simile of a house designed by the Earl of Burlington, and erected for General Wade, in Piccadilly, London.

The Provost's House contains portraits of Queen Elizabeth attributed to Martin Gheerhaerdt the younger, of Archbishop Ussher by Sir Peter Lely, and a portrait of the Duke of Bedford by Gainsborough.

PUBLIC THEATRE.

The Public Theatre, usually called the Examination Hall, was opened in 1787. It contains a Monument to Provost Baldwin (who died in 1758), and a number of portraits. Those of Queen Elizabeth and Archbishop Ussher are copies of the original portraits in the Provost's House. That of Bishop Berkeley is copied from a picture in Lambeth Palace. The portrait of Edmund Burke was painted by Hoppner.

In the gallery is the case belonging to the organ of the old chapel. This organ was built in Holland for a church in Spain,

but was taken from the Spaniards in Vigo Bay, 1702, and repaired and enlarged in 1705. It was presented to the College by the second Duke of Ormonde.

CHAPEL OF TRINITY COLLEGE.

The present Chapel is the third which has existed in Trinity College. It was opened in 1798, and cost £22,000. It contains three painted glass windows:—

One, representing the Recapitulation of the Law by Moses and the Restoration of the Jews, was erected in memory of Richard Graves, D.D., author of "Lectures on the Pentateuch," by his son and other relatives, in 1865.

The corresponding window on the other side of the Communion Table was erected in 1867, in memory of Bishop Berkeley, by the Right Honourable Robert Richard Warren, Judge of the Court of Probate.

The central window, directly over the Communion Table, was painted in Munich, and was erected in memory of Archbishop Ussher, by Dr. Butcher, late Bishop of Meath, in 1867.

The Chapel which preceded the present was consecrated in 1686. Its dimensions were the same as those of the present structure.

CAMPANILE.

The Campanile was erected in 1853, by Lord John George Beresford, Archbishop of Armagh and Chancellor of the University. The Bell, which was cast at Gloucester in 1744, weighs 31 cwt. 12 lbs. ; and its clapper 2 cwt. 13 lbs.

MUSEUM BUILDING.

This Building was erected by the Provost and Senior Fellows in 1857.

It contains the Museums of Geology, and Mineralogy, and of Engineering Models, the Drawing Room of the Engineering School, the Room of the Lending Library, a Physical Lecture room, the Lecture Room of the Schools of Divinity and Law, and a number of other Lecture Rooms. It contains also a Clock in electric connexion with the Observatory clock at Dunsink.

MEDICAL SCHOOL BUILDINGS.

These comprise three blocks.

In the middle one are:—

I. The Anatomical Department, which includes a large Dissecting Room with electric light; a Bone Room, in which are Sections of the frozen body, and various preparations and models illustrating the Development and the Topography of the Brain; a Lecture Theatre, with a powerful projecting Lantern; the Professors' rooms.

II. The Chemical Science School, including four general Laboratories, as well as special Laboratories for Quantitative and Gas Analysis; a Balance Room; a Chemical Museum, in which are a number of the rarer Chemical substances; a large Lecture Theatre; the Professors' rooms and laboratory.

III. A spacious Pathological Museum (see p. 274), with rooms for the Professor of Surgery.

IV. The Department of Materia Medica and Therapeutics, including a Laboratory, a Museum (see p. 274), and the Professors' rooms.

V. Two Lecture Theatres, Professors' rooms, the Office of the Registrar of the School, a Tutorial Class Room and a Students' Luncheon Room.

This part of the block was completed in 1887.

VI. The Museum of Anatomy and Zoology (see p. 273), completed in 1876.

At the north end of the Zoological Museum is the block containing the Department of Institutes of Medicine, which includes a large Laboratory for Histology, a Theatre in which the Lectures in Physiology are given, and the Professors' rooms. This block was finished in 1878; and subsequently enlarged in 1901.

On the south of the middle block is the School of Pathology, which contains a large Laboratory, a Theatre, the Lecturer's room, and a number of work and preparation rooms. In this building also accommodation is at present provided for the Department of Röntgen photography.

This building was completed in 1898.

All the Theatres have their seats numbered consecutively, one being assigned to each Student on entering for the corresponding course of Lectures.

SQUARES.

The Front Square, also known as Parliament Square, was erected along with the West Front.

The Library Square contains the oldest buildings in College, some of which were standing in the latter part of the seventeenth century.

The greater part of Botany Bay Square was built about the year 1816.

The New Square was begun in 1838, and finished in 1844.

GRADUATES' MEMORIAL.

The north side of the Library Square, which contained the old houses numbered 28 to 31, was demolished in 1899.

The Graduates' Memorial occupies the centre of the new building which has been erected in the space thus vacated, and contains a

theatre, a library, a reading room, recreation rooms, rooms for the use of the College Societies, cloak rooms, &c.

The wings of the new building contain forty sets of single students' chambers, and the entrances are at the east and west ends.

LABORATORY OF EXPERIMENTAL PHYSICS.

The Laboratory of Experimental Physics was completed during the Summer of 1906. It is the gift of Viscount Iveagh; his Lordship contributing a sum of £16,500 for its construction and equipment. The actual cost of building was £14,708; of the fittings £1292; and the balance of nearly £500 has been laid out on Scientific Instruments.

The interior is designed so as to provide special accommodation for Students engaged in research, as well as to meet all the requirements of a large teaching laboratory. Several research rooms, furnished with every convenience in the way of scientific fittings, as well as class rooms for teaching the great divisions of Physical Science, Heat, Light, Electricity and Magnetism, are provided. There are also a large class room for introductory teaching, and a lecture theatre, seating 132, fitted with the latest facilities for demonstration.

The city current is laid on throughout the building, and a continuous current is supplied from a large storage battery in the basement.

The Architect was Mr. W. C. Marshall of London.

The annual outlay upon the upkeep of this Department is in part defrayed by the Board, and in part derived from a fund contributed by the Graduates and friends of the University during the years 1903-1906 [see Calendar, Vol. III.]. From this fund an annual income of £350 is assigned to the Laboratory of Experimental Physics.

BOTANICAL LABORATORY.

The New School of Botany was opened at the beginning of Michaelmas Term, 1907. It was built and equipped through the munificence of Viscount Iveagh at a cost of about £7950, and endowed with an income of £280 *per annum* by public subscription to the Science Fund. The Building contains a Lecture Theatre, a large Laboratory to accommodate practical classes of 60 students, various Class Rooms, and Research Laboratories, and a small Library. The Building is equipped throughout with the various appliances and apparatus required for Botanical Instruction and Research. In 1912, partly by contribution from Viscount Iveagh, and partly by contribution from the Board, a Herbarium was added at a cost of about £800.

In the following list, the insertion of *none* of the letters (*a*), (*b*), (*c*) after a name signifies that the three degrees of M.B., B.Ch., and B.A.O. have been taken. The insertion of (*a*) signifies that the degree of M.B. has been taken, the insertion of (*b*) that the degree of B.Ch. has been taken, and the insertion of (*c*) that the degree of B.A.O. has been taken. Thus (*a, b*) signifies that the degrees of M.B. and B.Ch. have both been taken. The date given is that of the taking of the first in order of the degrees of M.B., B.Ch., and B.A.O.
